Siri,

I am waiting on the C2 confirmation for deleting the extra pointer. It seems to be taking a while.

I'll let you know as soon as I receive it.

Lori

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, April 11, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Virginia: New Law Removes TNC Vehicle Registration Requirement for Uber, Lyft Drivers

Transportation Network Company (TNC) drivers no longer need to obtain a special TNC vehicle registration from the Virginia Department of Motor Vehicles to operate within the Commonwealth. This change in law, which also includes a modification to TNC vehicle registration requirements for out-of-state drivers, took effect March 25, 2017. Patroned by Senator Steve Newman and Delegate Ron Villanueva, S.B. 1366 and H.B. 2019 also removed the requirement that TNC partner vehicles bear a DMV-issued black-and-yellow registration year decal on their license plates or, for out-of-state drivers, a decal in the vehicle's window. Instead, TNC partners will continue to obtain authorization to operate from a licensed transportation network company, notify the company of the vehicle to be used, and display applicable trade dress when the vehicle is in TNC use. [Read more here](#).

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, April 11, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Virginia: New Law Removes TNC Vehicle Registration Requirement for Uber, Lyft Drivers

Transportation Network Company (TNC) drivers no longer need to obtain a special TNC vehicle registration from the Virginia Department of Motor Vehicles to operate within the Commonwealth. This change in law, which also includes a modification to TNC vehicle registration requirements for out-of-state drivers, took effect March 25, 2017. Patroned by Senator Steve Newman and Delegate Ron Villanueva, S.B. 1366 and H.B. 2019 also removed the requirement that TNC partner vehicles bear a DMV-issued black-and-yellow registration year decal on their license plates or, for out-of-state drivers, a decal in the vehicle's window. Instead, TNC partners will continue to obtain authorization to operate from a licensed transportation network company, notify the company of the vehicle to be used, and display applicable trade dress when the vehicle is in TNC use. [NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, April 11, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Virginia: New Law Removes TNC Vehicle Registration Requirement for Uber, Lyft Drivers

Transportation Network Company (TNC) drivers no longer need to obtain a special TNC vehicle registration from the Virginia Department of Motor Vehicles to operate within the Commonwealth. This change in law, which also includes a modification to TNC vehicle registration requirements for out-of-state drivers, took effect March 25, 2017. Patroned by Senator Steve Newman and Delegate Ron Villanueva, S.B. 1366 and H.B. 2019 also removed the requirement that TNC partner vehicles bear a DMV-issued black-and-yellow registration year decal on their license plates or, for out-of-state drivers, a decal in the vehicle's window. Instead, TNC partners will continue to obtain authorization to operate from a licensed transportation network company, notify the company of the vehicle to be used, and display applicable trade dress when the vehicle is in TNC use. [Read more here](#).

Disability Placard/Plate Fraud Working Group Meets

The Disability Placard/Plate Fraud Working Group held its first in-person meeting April 5 & 6, 2017 in San Antonio, Texas. The working group, funded under AAMVA's cooperative agreement with NHTSA, made great progress toward their best practice recommendation for the deterrence and detection of fraud during the issuance process, and effective post issuance fraud detection and violation enforcement. The working group will be sending out a membership survey to guide some of the work that needs to occur prior to the second meeting scheduled to occur in September 2017.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, April 11, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Virginia: New Law Removes TNC Vehicle Registration Requirement for Uber, Lyft Drivers

Transportation Network Company (TNC) drivers no longer need to obtain a special TNC vehicle registration from the Virginia Department of Motor Vehicles to operate within the Commonwealth. This change in law, which also includes a modification to TNC vehicle registration requirements for out-of-state drivers, took effect March 25, 2017. Patroned by Senator Steve Newman and Delegate Ron Villanueva, S.B. 1366 and H.B. 2019 also removed the requirement that TNC partner vehicles bear a DMV-issued black-and-yellow registration year decal on their license plates or, for out-of-state drivers, a decal in the vehicle's window. Instead, TNC partners will continue to obtain authorization to operate from a licensed transportation network company, notify the company of the vehicle to be used, and display applicable trade dress when the vehicle is in TNC use. Post your open RFPs/RFIs on AAMVA's Web site at www.aamva.org/open-rfps/.

Open RFP's will be included in AAMVA's *Regional News* and *The Week In Review* newsletters to provide maximum exposure for jurisdictional procurements.

reviewing post-accident reports and made recommendations on the data elements required by the reports and modifications that may improve their use through the addition of data elements at its meeting in December 2016. At this meeting, the PAR will provide suggestions concerning the implementation of its recommendations to the FMCSA Administrator. The meeting is open to the public for its entirety.

FMCSA Announces Renewal of CMV Hearing Exemption

The Federal Motor Carrier Safety Administration (FMCSA) [announces](#) its decision to renew the exemptions for 3 individuals from the hearing requirement to operate commercial motor vehicles (CMVs) in interstate commerce. The exemptions enable these individuals to operate CMVs in interstate commerce. This decision was effective April 8, 2017. Comments on these exemption renewals must be received by May 5, 2017.

NHTSA Announces Annual Public Service Awards

The U.S. Department of Transportation's National Highway Traffic Safety Administration (NHTSA) presented 13 individuals and one organization with its Lifesaver's Public Service Safety Award. The public safety award recognizes the vigorous dedication certain individuals and organizations demonstrate to achieve the safety of all passengers on American roadways. The awards were presented at the 35th Lifesavers conference (March 26-28, 2017), the largest annual gathering of highway safety professionals in the U.S. [Read more here](#).

Materials Available: Distracted Driving Awareness Month

April is Distracted Driving Awareness month. To highlight the dangers of driving distracted, NHTSA's Traffic Safety Marketing has started the U Drive - U Text - U Pay campaign centered on aiding law enforcement officers in their efforts to keep distracted drivers off the road. Use these law enforcement campaign materials to raise awareness in your community about the consequences of texting while driving. These enforcement materials do not focus on social norming - for those materials, please refer to:

- [One Text Or Call Could Wreck It All campaign](#) (social norming)
- [General/Evergreen Resources](#)

DEADLINE THIS WEEK: Submit Nominations for the Martha Irwin Award for Lifetime Achievement in Highway Safety

The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for [achievement in highway safety in Motor Vehicle Administration \(MVA\)](#) and one for [achievement in highway safety in Law Enforcement \(LE\)](#). Visit the *Safety Awards* category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. **Award submissions and accompanying materials must be received by AAMVA by April 15, 2017.** All submissions should be sent to awards@aamva.org. **[Download the 2017 Awards Submission Packet](#)**.

Disability Placard/Plate Fraud Working Group Meets

http://www.mmsend35.com/link.cfm?r=zX03a4BuWhRT2d9ZLSZxhg~~&pe=bC4DzhSDrbgcbz-EXLkBgF8DRWGm7Od_AK3ZIkWJSXVYoGwuDIEAi_Zyl0nwzICKWY-51bq9aPiO3LIV6ko2ng~~The Disability Placard/Plate Fraud Working Group held its first in-person meeting April 5 & 6, 2017 in San Antonio, Texas. The working group, funded under AAMVA's cooperative agreement with NHTSA, made great progress toward their best practice recommendation for the deterrence and detection of fraud during the issuance process, and effective post issuance fraud detection and violation enforcement. The working group will be sending out a membership survey to guide some of the work that needs to occur prior to the second meeting scheduled to occur in September 2017.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group, please contact [Cathie Curtis](#), (207) 395-4100. If you are interested in applying for the working group, please [complete the application](#) and send to Dianne Graham at committees@aamva.org **by Friday, April 21.**

This Week's Webinars

NMVTIS State Web Interface (SWI) – Understanding the Administrative Features Tuesday, April 11, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the

states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

Virginia: New Law Removes TNC Vehicle Registration Requirement for Uber, Lyft Drivers

Transportation Network Company (TNC) drivers no longer need to obtain a special TNC vehicle registration from the Virginia Department of Motor Vehicles to operate within the Commonwealth. This change in law, which also includes a modification to TNC vehicle registration requirements for out-of-state drivers, took effect March 25, 2017. Patroned by Senator Steve Newman and Delegate Ron Villanueva, S.B. 1366 and H.B. 2019 also removed the requirement that TNC partner vehicles bear a DMV-issued black-and-yellow registration year decal on their license plates or, for out-of-state drivers, a decal in the vehicle's window. Instead, TNC partners will continue to obtain authorization to operate from a licensed transportation network company, notify the company of the vehicle to be used, and display applicable trade dress when the vehicle is in TNC use. [Read more here.](#)

Congress Requests Duplicative Security Threat Assessment Data

The United States Senate Commerce, Science, and Transportation Committee has requested that AAMVA [survey](#) its membership regarding duplicative security threat assessment requirements associated with obtaining a hazardous materials (HAZMAT) endorsement and obtaining the Transportation Worker Identification Credential (TWIC). Responses will inform the Committee of current state security threat assessment procedures and their applicability to HAZMAT endorsements and the TWIC.

FMCSA Announces Post-Accident Reporting Meeting at CVSA Workshop

The Federal Motor Vehicle Carrier Safety Administration (FMCSA) [announces](#) a meeting of its Post-Accident Reporting (PAR) Advisory Committee on Monday, April 24, 2017, at the Commercial Vehicle Safety Alliance (CVSA) Workshop in Atlanta, GA. Under section 5306 of the FAST Act, the PAR was charged with reviewing post-accident reports and made recommendations on the data elements required by the reports and modifications that may improve their use through the addition of data elements at its meeting in December 2016. At this meeting, the PAR will provide suggestions concerning the implementation of its recommendations to the FMCSA Administrator. The meeting is open to the public for its entirety.

FMCSA Announces Renewal of CMV Hearing Exemption

The Federal Motor Carrier Safety Administration (FMCSA) [announces](#) its decision to renew the exemptions for 3 individuals from the hearing requirement to operate commercial motor vehicles (CMVs) in interstate commerce. The exemptions enable these individuals to operate CMVs in interstate commerce. This decision was effective April 8, 2017. Comments on these exemption renewals must be received by May 5, 2017.

NHTSA Announces Annual Public Service Awards

The U.S. Department of Transportation's National Highway Traffic Safety Administration (NHTSA) presented 13 individuals and one organization with its Lifesaver's Public Service Safety Award. The public safety award recognizes the vigorous dedication certain individuals and organizations demonstrate to achieve the safety of all passengers on American roadways. The awards were presented at the 35th Lifesavers conference (March 26-28, 2017), the largest annual gathering of highway safety professionals in the U.S. [Read more here.](#)

Materials Available: Distracted Driving Awareness Month

April is Distracted Driving Awareness month. To highlight the dangers of driving distracted, NHTSA's Traffic Safety Marketing has started the U Drive - U Text - U Pay campaign centered on aiding law enforcement officers in their efforts to keep distracted drivers off the road. Use these law enforcement

campaign materials to raise awareness in your community about the consequences of texting while driving. These enforcement materials do not focus on social norming - for those materials, please refer to:

- [One Text Or Call Could Wreck It All campaign](#) (social norming)
- [General/Evergreen Resources](#)

For more information, facts, and toolkits, please visit www.Distracted.gov

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, April 11, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Virginia: New Law Removes TNC Vehicle Registration Requirement for Uber, Lyft Drivers

Transportation Network Company (TNC) drivers no longer need to obtain a special TNC vehicle registration from the Virginia Department of Motor Vehicles to operate within the Commonwealth. This change in law, which also includes a modification to TNC vehicle registration requirements for out-of-state drivers, took effect March 25, 2017. Patroned by Senator Steve Newman and Delegate Ron Villanueva, S.B. 1366 and H.B. 2019 also removed the requirement that TNC partner vehicles bear a DMV-issued black-and-yellow registration year decal on their license plates or, for out-of-state drivers, a decal in the vehicle's window. Instead, TNC partners will continue to obtain authorization to operate from a licensed transportation network company, notify the company of the vehicle to be used, and display applicable trade dress when the vehicle is in TNC use. [Read more here](#).

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, April 11, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Virginia: New Law Removes TNC Vehicle Registration Requirement for Uber, Lyft Drivers

Transportation Network Company (TNC) drivers no longer need to obtain a special TNC vehicle registration from the Virginia Department of Motor Vehicles to operate within the Commonwealth. This change in law, which also includes a modification to TNC vehicle registration requirements for out-of-state drivers, took effect March 25, 2017. Patroned by Senator Steve Newman and Delegate Ron Villanueva, S.B. 1366 and H.B. 2019 also removed the requirement that TNC partner vehicles bear a DMV-issued black-and-yellow registration year decal on their license plates or, for out-of-state drivers, a decal in the vehicle's window. Instead, TNC partners will continue to obtain authorization to operate from a licensed transportation network company, notify the company of the vehicle to be used, and display applicable trade dress when the vehicle is in TNC use. This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, April 11, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Virginia: New Law Removes TNC Vehicle Registration Requirement for Uber, Lyft Drivers

Transportation Network Company (TNC) drivers no longer need to obtain a special TNC vehicle registration from the Virginia Department of Motor Vehicles to operate within the Commonwealth. This change in law, which also includes a modification to TNC vehicle registration requirements for out-of-state drivers, took effect March 25, 2017. Patroned by Senator Steve Newman and Delegate Ron Villanueva, S.B. 1366 and H.B. 2019 also removed the requirement that TNC partner vehicles bear a DMV-issued black-and-yellow registration year decal on their license plates or, for out-of-state drivers, a decal in the vehicle's window. Instead, TNC partners will continue to obtain authorization to operate from a licensed transportation network company, notify the company of the vehicle to be used, and display applicable trade dress when the vehicle is in TNC use. [Read more here](#).

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, April 11, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Virginia: New Law Removes TNC Vehicle Registration Requirement for Uber, Lyft Drivers

Transportation Network Company (TNC) drivers no longer need to obtain a special TNC vehicle registration from the Virginia Department of Motor Vehicles to operate within the Commonwealth. This change in law, which also includes a modification to TNC vehicle registration requirements for out-of-state drivers, took effect March 25, 2017. Patroned by Senator Steve Newman and Delegate Ron Villanueva, S.B. 1366 and H.B. 2019 also removed the requirement that TNC partner vehicles bear a DMV-issued black-and-yellow registration year decal on their license plates or, for out-of-state drivers, a decal in the vehicle's window. Instead, TNC partners will continue to obtain authorization to operate from a licensed transportation network company, notify the company of the vehicle to be used, and display applicable trade dress when the vehicle is in TNC use. reviewing post-accident reports and made recommendations on the data elements required by the reports and modifications that may improve their use through the addition of data elements at its meeting in December 2016. At this meeting, the PAR will provide suggestions concerning the implementation of its recommendations to the FMCSA Administrator. The meeting is open to the public for its entirety.

FMCSA Announces Renewal of CMV Hearing Exemption

The Federal Motor Carrier Safety Administration (FMCSA) [announces](#) its decision to renew the exemptions for 3 individuals from the hearing requirement to operate commercial motor vehicles (CMVs) in interstate commerce. The exemptions enable these individuals to operate CMVs in interstate commerce. This decision was effective April 8, 2017. Comments on these exemption renewals must be received by May 5, 2017.

NHTSA Announces Annual Public Service Awards

The U.S. Department of Transportation's National Highway Traffic Safety Administration (NHTSA) presented 13 individuals and one organization with its Lifesaver's Public Service Safety Award. The public safety award recognizes the vigorous dedication certain individuals and organizations demonstrate to achieve the safety of all passengers on American roadways. The awards were presented at the 35th Lifesavers conference (March 26-28, 2017), the largest annual gathering of highway safety professionals in the U.S. [Read more here](#).

Materials Available: Distracted Driving Awareness Month

April is Distracted Driving Awareness month. To highlight the dangers of driving distracted, NHTSA's Traffic Safety Marketing has started the U Drive - U Text - U Pay campaign centered on aiding law enforcement officers in their efforts to keep distracted drivers off the road. Use these law enforcement campaign materials to raise awareness in your community about the consequences of texting while driving. These enforcement materials do not focus on social norming - for those materials, please refer to:

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, April 11, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Virginia: New Law Removes TNC Vehicle Registration Requirement for Uber, Lyft Drivers

Transportation Network Company (TNC) drivers no longer need to obtain a special TNC vehicle registration from the Virginia Department of Motor Vehicles to operate within the Commonwealth. This change in law, which also includes a modification to TNC vehicle registration requirements for out-of-state drivers, took effect March 25, 2017. Patroned by Senator Steve Newman and Delegate Ron Villanueva, S.B. 1366 and H.B. 2019 also removed the requirement that TNC partner vehicles bear a DMV-issued black-and-yellow registration year decal on their license plates or, for out-of-state drivers, a decal in the vehicle's window. Instead, TNC partners will continue to obtain authorization to operate from a licensed transportation network company, notify the company of the vehicle to be used, and display applicable trade dress when the vehicle is in TNC use. Marla,
Please find attached the document I mentioned yesterday regarding the assessment AAMVA did on alternative designs to support the S2S functionalities.
Option 5 - Fully distributed (AKA multi search) is the solution we were discussing yesterday where in the absence of a central index each inquiry will need to be sent to 55 jurisdictions (territories included).
You will see at the bottom of page iv, table ES1 shows that this solution had the worse rating of all possible design option.
I will be happy to go over the document with you and your team if necessary.
Thanks - PG

Subject: CDLIS WG Face to Face meeting

When: Monday, April 10, 2017 6:00 PM-7:00 PM (UTC-05:00) Eastern Time (US & Canada).

Where: Hyatt Regency St. Louis at The Arch Hotel located at 315 Chestnut Street, St. Louis, Missouri

Updated the time to 5:00 pm, Central Time.

Hello Working Group,

During the event of the CDL Conference next week, we would like to have a face to face meeting with the working group. This will be a great opportunity to meet and have a good discussion when we are all assembled in one room.

At this point, we do not have an assigned conference room for this meeting, so let us plan to meet in the lobby.

Since we are not sure whether we will be in a position to project anything during our meeting, I will try to bring handouts for everyone.

I will be sending the agenda for this meeting later this week, but if anybody needs it earlier please let me know.

Please let me know if you have any questions.

I look forward to seeing you all in St. Louis next week.

Thank you!

Madhu

Marla,
Please find attached the document I mentioned yesterday regarding the assessment AAMVA did on alternative designs to support the S2S functionalities.
Option 5 - Fully distributed (AKA multi search) is the solution we were discussing yesterday where in the absence of a central index each inquiry will need to be sent to 55 jurisdictions (territories included). You will see at the bottom of page iv, table ES1 shows that this solution had the worse rating of all possible design option.
I will be happy to go over the document with you and your team if necessary.
Thanks - PG

Good Morning Lori,

I usually leave by 3:30 PM ET, so sorry, could not send the IO yesterday.

I tried it this morning but have not received the HC yet.

Thank you,
Siri.

Siri,

Yes, let's continue tomorrow.

If you are still at work, would you please send the IO one more time?

Thanks,
Lori

Siri,

It appears that you are sending an 'IM' message type as a PDPS message. It should be an 'IO', correct?

I'm not sure if that is the cause of my problem, but would you mind sending an 'IO' to check?

Thank you.

Good morning Siri,

I'm looking forward to a much better day of testing today.

The reason your IO didn't work this morning is that my testing application wasn't running yet.

I'm ready now.

Thanks for your patience yesterday.

Lori

Siri,

I've run into another problem. I'll email you when I'm ready to try again.

Thanks.

Ok, I sent it again. Looks like there are 2 pointers at PDPS central site with same information and the DLNs are AI1000309
AI1000314(I received 2 R2 messages). Would it be possible to delete AI1000309?

Thank you

Subject: AAMVA Survey Request - New Hampshire is seeking information on CDL training programs

Please respond to this survey from New Hampshire. The jurisdictions that have already responded are listed after the survey.

CDL Training Programs (Ends 05/02/2017) Responses received from CA, DE, ID, IL, IN, MI, MS, VT.

New Hampshire appreciates your response. Please let me know if you have any questions about using the survey tool.

Thank you.

Janice Dluzynski | American Association of Motor Vehicle Administrators
(703) 908-5842 | jduluzynski@aamva.org

Note: All [open surveys](#) and [survey responses](#) can be accessed by going to www.aamva.org and clicking on the **Solutions & Best Practices** tab on the navigation bar or the **New Surveys** tab in the box on the left side of the screen.

From: McNeil, Lori (DOA sponsored)
Sent: Tuesday, April 11, 2017 9:23 AM
To: Holenarsipura, Subramanya
Cc: Peters, Mina L (DOA)
Subject: RE: PDPS Casual Testing - Driver A

Siri,

Received the U2 confirmation.

Given how disjointed the Stream A testing has been, could we run through it again? I would need a few minutes to revert the DOB change and add the pointer again.

Thanks,

Lori

Siri,

In the A9 transaction description it has the old DOB sent as DOB. Is that what you want, or should it be the new DOB from A6?

Thank you.

Good morning Siri,

I'm looking forward to a much better day of testing today.

The reason your IO didn't work this morning is that my testing application wasn't running yet.

I'm ready now.

Thanks for your patience yesterday.

Lori

Good Morning Lori,

I usually leave by 3:30 PM ET, so sorry, could not send the IO yesterday.

I tried it this morning but have not received the HC yet.

Thank you,

Siri.

Siri,

It appears that you are sending an 'IM' message type as a PDPS message. It should be an 'IO', correct?

I'm not sure if that is the cause of my problem, but would you mind sending an 'IO' to check?

Thank you.

Siri,

I received the C2, so the extra pointer should be gone now.

Would you please try the IO again?

Thanks!

Subject: RE: PDPS Casual Testing - Driver A

Siri,

I apologize. I thought I had cleaned up that pointer. I'll remove it, and let you know when I am ready for a new IO.

Lori

Subject: PDPS Casual Testing

Good morning Siri,

I'm ready to start testing.

Let me know how you would like me to begin.

Thanks,

Lori McNeil • Senior Programmer / Analyst

From: awards@aamva.org
Sent: Tuesday, April 11, 2017 11:22 AM
To: Leonardo, Debra L (DOA)
Subject: AAMVA Awards Program - Deadline April 15

Martha Irwin Awards Submissions Due April 15

Lifetime Achievement Awards nominations are due April 15

Don't miss this opportunity to recognize lifetime achievement in highway safety. The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts.

The individual can be currently active or retired. One award is presented for achievement in highway safety in Motor Vehicle Administration (MVA) and one for achievement in highway safety in Law Enforcement (LE).

Submission and Nomination Packet

Find all the information you need for submissions and nominations, simply click on the packet below.

Deadlines

Martha Irwin Awards Nominations are due:
April 15, 2017
5 PM Eastern Time

For detailed information regarding the deadlines and timeline, visit the [AAMVA Awards website](#).

How to Submit

Martha Irwin submissions and accompanying materials must be received by AAMVA by April 15, 2017. All submissions should be sent to awards@aamva.org

4401 Wilson Boulevard, Suite 700, Arlington, VA 22203

I thought everyone might be interested in this. They don't mention it in the article, but this is a good example of how state-to-state stopped fraud and helped catch someone on the Army's most wanted list.

When: Tuesday, April 11, 2017 7:30 PM-9:30 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Gio's Ristorante St. Louis, MO

Updating with a change in venue.

Hello All,

The CDLIS Working Group will be meeting for dinner again this year at the CDL Coordinators in St. Louis.

Due to seating limitations please check with me before forwarding this invite outside of the group.

Dinner Reservation:

When – Tuesday April 11th 2017, at 6:30 pm CDT

Where – 701 Market St #100, St. Louis, MO 63101

Menu - <http://giosdowntown.com/>

Directions -

<https://www.google.com/maps/dir/Hyatt+Regency+St.+Louis+at+The+Arch,+Chestnut+Street,+St.+Louis,+MO/Gio's,+701+Market+St+%23100,+St.+Louis,+MO+63101/@38.6262055,-90.1910671,18z/am=t/data=!4m14!4m13!1m5!1m1!1s0x87d8b31de5f5865d:0x3f5edb427f2add1b!2m2!1d-90.187676!2d38.626202!1m5!1m1!1s0x87d8b31be1bfe367:0x3749f6c65c8e382a!2m2!1d-90.1921634!2d38.6265794!5i1>

AAMVA will be picking up the tab for dinner. All attendees must subtract \$24 from their per diem reimbursement requests for 04/11 (per diem dinner for St. Louis area is \$24).

Thank you

Importance: High

Alaska. Your connection to the NCS application has disconnected abnormally. This disconnection was not initiated by AAMVA and only affects your site. Please check your system logs (UNI and/or Network and Firewall) to identify what initiated this disconnection and reestablish your connectivity. Please provide AAMVA detailed information on the cause of this loss of connectivity.

AAMVA is also checking all dedicated resources. If it is determined that the cause of the problem is at any of AAMVA's dedicated resources we will let you know.

For UNI users, if you cannot determine the cause then please send the UNI IP log to UniHelpDesk@aamva.org.

UNI IP Log for CICS is the TCPM (TCPDATA) CICS System log.
UNI IP Log for IMS is the UNI Error Log.
UNI IP Log for Windows today's status log (UNI40\Data\Log).
UNI IP Log for UNIX is the UNISES files in \$UNI_DATA/uni/UNISES*

Siri,

The RL is showing no matches. It should have found a match by DLN even though the Social Security number and name didn't match.

I need to look at the code. I'll email you when I figure it out.

Thanks.

Siri,

I had an error on my U3. I've fixed and resent it. Waiting for confirmation.

Confirmation should come in about 20 minutes.

Siri,

I sent the U3 and am waiting on the C3 confirmation. It seems like the batch process runs around 15 and 45 after the hour, so it will probably be half an hour before I receive the confirmation.

I'll email you when it comes through.

Lori

Siri,

I have completed C9 and received the C2 confirmation.

Do you want to move on to Driver Stream D?

Thank you.

Siri,

I had an error on my U3. I've fixed and resent it. Waiting for confirmation.

Confirmation should come in about 20 minutes.

Siri,

I sent the U3 and am waiting on the C3 confirmation. It seems like the batch process runs around 15 and 45 after the hour, so it will probably be half an hour before I receive the confirmation.

I'll email you when it comes through.

Siri,

I had an error on my U3. I've fixed and resent it. Waiting for confirmation.

Confirmation should come in about 20 minutes.

Lori

Siri,

I sent the U3 and am waiting on the C3 confirmation. It seems like the batch process runs around 15 and 45 after the hour, so it will probably be half an hour before I receive the confirmation.

I'll email you when it comes through.

Lori

Hi AK,

Attached are the questionnaires with my questions/comments. You need to turn the edit on to be able to see the comments. I accepted all the changes on the documents so we can start fresh. Please update the questionnaires with tracking on. Also on the Test Questionnaire there were five questions that had erroneously been listed under the "Batch Only Questions" that pertain to both online and batch that I have pulled out and put at the bottom. Please answer those.

Please don't hesitate to let me know if you have questions.

Thanks,

Subject: Survey Q's

Hi Mindy,

Here are the questions we want to ask.

1. Has your state organized a team that will be responsible for implementing the computer changes that your state will need, to be able to use CDLIS to exchange medical examiner's certificate information electronically with the National Registry?
2. Has your state developed a project plan to implement CDLIS changes for the National Registry II Final Rule?
3. How many months does your SDLA need to implement CDLIS changes for the National Registry II Final Rule, from beginning to being operational in production?
4. For a comparable CDLIS project in the past with similar complexity, how many months did your SDLA need to implement technical changes, from initial planning stages to being operational in production?
5. Are you aware that mini-specifications are available now, to assist your SDLA in gaining a better understanding of the technical requirements for the CDLIS changes that your state will need to implement?
6. Are you planning to use the mini-specifications for planning purposes now, or do you plan to wait until the full, complete specifications are ready before you begin planning?
7. Are you planning to use the mini-specifications to begin implementation efforts now, or do you plan to wait until the full, complete specifications are ready before you begin implementation?
8. Is there any additional information that you need to ensure that your state is able to implement the CDLIS/National Registry changes into production? If so, please list.

We would like the survey to be open for 2 weeks.

Mindy Stephens

As you know, AAMVA's Annual International Conference is being held in San Francisco, California , August 21-23, 2017. Chair Jean Shiimoto is looking forward to hosting the conference and is preparing a dynamic and interesting program.

As offered in the attached letter, I am pleased to report that, for the ninth year, the AAMVA International Board of Directors will make support funding available for member jurisdictions in good standing to attend the AAMVA Annual International Conference (AIC). We hope you will take this opportunity to attend or send additional staff to the Annual International Conference in San Francisco. If you have any questions or need additional information, please let me know.

This is a group distribution email, please do NOT reply all.

Sincerely,

Anne

MEMO

TO: AAMVA Chief Administrators of Dues-Paying Agencies

FROM: Anne Ferro, AAMVA President & CEO

DATE: Wednesday, April 19, 2017

RE: Travel Assistance for 2017 Annual International Conference

I am pleased to report that, for the ninth year, the AAMVA International Board of Directors will make support funding available for member jurisdictions in good standing to attend the AAMVA Annual International Conference (AIC). A "member in good standing" is defined as a jurisdiction that is current on its membership dues and fees.

AAMVA will provide up to \$4,500 USD to each jurisdiction for use by the dues-paying agency to attend the 2017 AIC in San Francisco, CA. If your jurisdiction's dues are divided between two agencies, the funding will be divided equally between the agencies; if three agencies share the dues, then 1/3 will be allocated to each agency. You are receiving this information because you are Chief Administrator of a dues-paying agency.

To maximize flexibility, you may allocate the \$4,500 across airline, hotel, conference registration, and/or per diem costs for as many people as the \$4,500 will cover. All attendees will register for the meeting via the AAMVA website and pay the jurisdiction rate. You will book your own hotel reservations and pay for the incidentals needed to attend. After the meeting, each jurisdiction will provide AAMVA travel expense forms for each employee or each agency for reimbursement.

In addition, the Board approved funding to support AIC attendance by the chief highway safety law enforcement executive of your jurisdiction (or their executive level designee) in the case where that agency is not in any way responsible for AAMVA dues. If this is the case in your jurisdiction, I plan to send a letter the week of April 24th inviting them to use this law enforcement funding. If you would prefer to extend this invitation directly to your law enforcement partner, please [email](#) or call me before April 21st.

If you have any other questions about the conference or our travel assistance program, please feel free to contact [Ian Grossman](#) or [Dianne Graham](#) on the AAMVA team. Thank you.

Attachments: AK Meeting Minutes 20170412.docx

Hi AK,

Attached are the minutes for today's meeting. Please let me know if I missed or misstated anything.

Please don't hesitate to let me know if you have questions.

Thanks,

Susan Creighton | Lead Systems Analyst - Quality Assurance Vehicles |AAMVA | 4401 Wilson Blvd, Ste 700, Arlington, VA 22203 | 703.908.5893 | screighton@aamva.org | www.aamva.org

Be part of the solution.

[Help protect states and consumers from vehicle fraud and unsafe vehicles; get information from the National Motor Vehicle Title Information System.](#)

MEETING AGENDA and MINUTES ALASKA – STATUS MEETING

Date of Meeting: 4/12/2017

Minutes Prepared By: Susan Creighton

Location: Conference Call – (888) 390-7016 pass code 1509728
Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Tentative implementation is set for early December 2017.

2. Attendance at Meeting *(add rows as necessary)*

Name	Department/Division	Invitee	Attended
Mina Peters	Alaska	√	
David Nolen	Alaska	√	√
Dillon Pressley	Alaska – Resource Data	√	√
Patrick Anderson	Alaska – Resource Data	√	√
Casey Garber	AAMVA, Business Solutions	√	√
Susan Creighton	AAMVA, Lead Systems Analyst	√	√
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- Casual Testing Status
- Status of Outstanding Items
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

AK is still in the process of casual testing. AK has run through all of their test scenarios with no issues. Susan is waiting for AK to add the 2 VINs discussed to NMVTIS. At the end of the next meeting we will execute a couple of unsolicited messages so that AK can ensure they are working properly. AK needs to set up base vehicle records in NMVTIS so that unsolicited messages can be sent to AK. It is recommended that AK set up the records on the AK database so that they are full filled meaning they have data in all the fields that AK might return in the unsolicited messages including the maximum occurrences.

AAMVA reviewed the questionnaires from AK and sent questions/comments. AK to respond to the questions. Once the questions are clarified AAMVA will create the online test case plan and set up the test data on NMVTIS. We are aiming for structured testing to begin no later than 5/8 and sooner if at all possible.

AAMVA sent the latest Batch and Online Specs to AK.

NEXT STEPS:

AK to respond to Susan's questions/comments on the questionnaires

AK to set up base vehicle records in NMVTIS so that unsolicited messages can be sent to AK

Susan to create the online test case plan – must have questionnaires completed before this can be started.

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status
Review Business and Test Questionnaire and send questions/comments	Susan Creighton	4/7/2017	Complete
Send Batch specs to AK	Susan Creighton	4/6/2017	Complete
Respond to AAMVA questions on Business Questionnaire	AK	4/14/2017	Open
Respond to AAMVA questions on Test Questionnaire	AK	4/14/2017	Open

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	Owner	Due Date	Status

7. Next Meeting

Date: (MM/DD/CCYY)	4/19/2017	Time:	4:30 pm – 5:30 pm ET	Location:	Jaguar Conference Room
Agenda:	Will be Sent out Prior to Meeting

Subject: Time sensitive: Alaskan newspaper request for information

Marla / Chrissy,

We received a request for information on S2S from an Alaskan newspaper yesterday. Below, our proposed response (our answers are highlighted in green), with the original request lower down. The newspaper asked that we respond before 1pm EDT today. Do you have any input or comments on the proposed response?

Thanks,

Loffie

--How many individuals' records are currently stored by State-to-State? State-to-State administers approximately 36 million pointers. These pointers contain the minimum information necessary to identify records maintained in each DMV's own database. Each person's full record is maintained only in a DMV's database. The function of a pointer is to "point to" the full record.

--Can you describe what security measures protect the personal information stored by State-to-State? The response to Question 7 in Commissioner Fischer's letter to Senator MacKinnon already describes the salient security features of the system. What can be added is that security has been a design requirement from Day 1, and that applicable FISMA and NIST standards have been and are being followed to ensure adequate protection of, among others, all data.

--Why are partial Social Security #s needed to make the system work? I.e., why couldn't it work just by using names/birthdates/less sensitive information? Minimizing the distribution of Personally Identifiable Information (PII) (such as Name, DOB and SSN) was one of the design principles of the system. A study performed during the initial design of the system concluded that using only Name and DOB to identify an individual would lead to more PII being exchanged than if the SSN was also used. The reason is as follows: The goal of the system is to ensure that a person has only one driver's license, and only one Real ID card. If a state (say Alaska) wants to issue a DL to an applicant, AK has to determine if the person already has a DL in another state. AK does so by submitting an inquiry to the system using the person's identifying information. The system then responds with the identifying information of all the individuals in the system whose PII is a match to the information AK submitted. If only the Name and DOB were available to search on, AK would receive more records back than if the SSN was also available to search on. Including the SSN thus limits the unnecessary dissemination of PII to AK. And in the reverse, including the SSN minimizes the unnecessary dissemination of PII of Alaskan drivers to other states.

--Alaska's DMV wrote a letter to AAMVA yesterday ([see page 4 here](#)) asking about the possibility of State-to-State using four digits of peoples' Social Security numbers rather than five.

--Is that possible?

--What would be the process for making such a change? The system does not currently support the use of only four digits of the SSN. If a state wants such a change, the process is to submit a request to the S2S Governance Committee. The S2S Governance Committee consists of representatives of all the states participating in S2S, and is in full control of the system. The S2S Governance Committee will then evaluate the request and determine the best course of action.

--Would you guys like to respond to concerns raised by some legislators here that allowing five digits of Alaskans' Social Security numbers to be stored in a non-DMV database poses privacy risks, given that many Alaskans have the same three numbers as a prefix for their Social Security numbers?

Any PII stored in any information system poses a privacy risk. The challenge is to find a solution that supports the function of the system while at the same time maximizing the protection of PII. We believe that the current system design has found this balance.

More to the question, the same argument (that many Alaskans have the same three numbers as the start of their SSNs) can be made for any other state. This was already known and understood during the initial design of the system. At that time it was determined that the existing solution maximized achievement of the various design requirements, including privacy requirements.

Lastly, it should be noted that AAMVA is a nonprofit member organization. That is, AAMVA is "owned" by the DMVs. The AAMVA Board of Directors is made up of DMV representatives. The list of pointer records therefore could be seen as a logical and operational part of each DMV's own systems.

Mina,

It should be possible to respond to a Voltage email with the result being sent encrypted. The catch is to respond in the web page itself.

Below is what I see when I open an encrypted email using a web browser. Hitting the Reply button opens up a response in the browser. Can you please see if you can respond in this way to the original email I sent you?

Thanks,

Loffie

testing testing

I'm sending our two SPEXS training powerpoints for your amusement. Let me know if you get these ok and I'll send my spreadsheet.

FYI - the 30 that I identified were ONLY those found in the course of issuing a license. We don't keep the data for a simple IM - only when a user receives an HC during issuance and has to make a decision to use or not.

Thanks again,

Mina

--Would you guys like to respond to concerns raised by some legislators here that allowing five digits of Alaskans' Social Security numbers to be stored in a non-DMV database poses privacy risks, given that many Alaskans have the same three numbers as a prefix for their Social Security numbers?

Any PII stored in any information system poses a privacy risk. The challenge is to find a solution that supports the function of the system while at the same time maximizing the protection of PII. We believe that the current system design has found this balance.

More to the question, the same argument (that many Alaskans have the same three numbers as the start of their SSNs) can be made for any other state. This was already known and understood during the initial design of the system. At that time it was determined that the existing solution maximized achievement of the various design requirements, including privacy requirements.

Lastly, it should be noted that AAMVA is a nonprofit member organization. That is, AAMVA is "owned" by the DMVs. The AAMVA Board of Directors is made up of DMV representatives. The list of pointer records therefore could be seen as a logical and operational part of each DMV's own systems.

Subject: Re: State-to-State

Hi Loffie,

Thanks for the note. I'd prefer to have a telephone conversation -- my number is 907-793-0312 -- but if that's not possible, here are some questions:

--How many individuals' records are currently stored by State-to-State?

--Can you describe what security measures protect the personal information stored by State-to-State?

--Why are partial Social Security #s needed to make the system work? I.e., why couldn't it work just by using names/birthdates/less sensitive information?

--Alaska's DMV wrote a letter to AAMVA yesterday ([see page 4 here](#)) asking about the possibility of State-to-State using four digits of peoples' Social Security numbers rather than five.

--Is that possible?

--What would be the process for making such a change?

--Would you guys like to respond to concerns raised by some legislators here that allowing five digits of Alaskans' Social Security numbers to be stored in a non-DMV database poses privacy risks, given that many Alaskans have the same three numbers as a prefix for their Social Security numbers?

Thank you,
Nat

Subject: Time sensitive: Alaskan newspaper request for information
Importance: High

Marla / Chrissy,

We received a request for information on S2S from an Alaskan newspaper yesterday. Below, our proposed response (our answers are highlighted in green), with the original request lower down. The newspaper asked that we respond before 1pm EDT today. Do you have any input or comments on the proposed response?

Thanks,

Loffie

--How many individuals' records are currently stored by State-to-State? State-to-State administers approximately 36 million pointers. These pointers contain the minimum information necessary to identify records maintained in each DMV's own database. Each person's full record is maintained only in a DMV's database. The function of a pointer is to "point to" the full record.

--Can you describe what security measures protect the personal information stored by State-to-State? The response to Question 7 in Commissioner Fischer's letter to Senator MacKinnon already describes the salient security features of the system. What can be added is that security has been a design requirement from Day 1, and that applicable FISMA and NIST standards have been and are being followed to ensure adequate protection of, among others, all data.

--Why are partial Social Security #s needed to make the system work? I.e., why couldn't it work just by using names/birthdates/less sensitive information? Minimizing the distribution of Personally Identifiable Information (PII) (such as Name, DOB and SSN) was one of the design principles of the system. A study performed during the initial design of the system concluded that using only Name and DOB to identify an individual would lead to more PII being exchanged than if the SSN was also used. The reason is as follows: The goal of the system is to ensure that a person has only one driver's license, and only one Real ID card. If a state (say Alaska) wants to issue a DL to an applicant, AK has to determine if the person already has a DL in another state. AK does so by submitting an inquiry to the system using the

person's identifying information. The system then responds with the identifying information of all the individuals in the system whose PII is a match to the information AK submitted. If only the Name and DOB were available to search on, AK would receive more records back than if the SSN was also available to search on. Including the SSN thus limits the unnecessary dissemination of PII to AK. And in the reverse, including the SSN minimizes the unnecessary dissemination of PII of Alaskan drivers to other states.

--Alaska's DMV wrote a letter to AAMVA yesterday ([see page 4 here](#)) asking about the possibility of State-to-State using four digits of peoples' Social Security numbers rather than five.

--Is that possible?

--What would be the process for making such a change? The system does not currently support the use of only four digits of the SSN. If a state wants such a change, the process is to submit a request to the S2S Governance Committee. The S2S Governance Committee consists of representatives of all the states participating in S2S, and is in full control of the system. The S2S Governance Committee will then evaluate the request and determine the best course of action.

--Would you guys like to respond to concerns raised by some legislators here that allowing five digits of Alaskans' Social Security numbers to be stored in a non-DMV database poses privacy risks, given that many Alaskans have the same three numbers as a prefix for their Social Security numbers?

Subject: Time sensitive: Alaskan newspaper request for information

Importance: High

Marla / Chrissy,

We received a request for information on S2S from an Alaskan newspaper yesterday. Below, our proposed response (our answers are highlighted in green), with the original request lower down. The newspaper asked that we respond before 1pm EDT today. Do you have any input or comments on the proposed response?

Thanks,

Loffie

--How many individuals' records are currently stored by State-to-State? State-to-State administers approximately 36 million pointers. These pointers contain the minimum information necessary to identify records maintained in each DMV's own database. Each person's full record is maintained only in a DMV's database. The function of a pointer is to "point to" the full record.

--Can you describe what security measures protect the personal information stored by State-to-State? The response to Question 7 in Commissioner Fischer's letter to Senator MacKinnon already describes the salient security features of the system. What can be added is that security has been a design requirement from Day 1, and that applicable FISMA and NIST standards have been and are being followed to ensure adequate protection of, among others, all data.

--Why are partial Social Security #s needed to make the system work? I.e., why couldn't it work just by using names/birthdates/less sensitive information? Minimizing the distribution of Personally Identifiable

Information (PII) (such as Name, DOB and SSN) was one of the design principles of the system. A study performed during the initial design of the system concluded that using only Name and DOB to identify an individual would lead to more PII being exchanged than if the SSN was also used. The reason is as follows: The goal of the system is to ensure that a person has only one driver's license, and only one Real ID card. If a state (say Alaska) wants to issue a DL to an applicant, AK has to determine if the person already has a DL in another state. AK does so by submitting an inquiry to the system using the person's identifying information. The system then responds with the identifying information of all the individuals in the system whose PII is a match to the information AK submitted. If only the Name and DOB were available to search on, AK would receive more records back than if the SSN was also available to search on. Including the SSN thus limits the unnecessary dissemination of PII to AK. And in the reverse, including the SSN minimizes the unnecessary dissemination of PII of Alaskan drivers to other states.

--Alaska's DMV wrote a letter to AAMVA yesterday ([see page 4 here](#)) asking about the possibility of State-to-State using four digits of people's Social Security numbers rather than five.

--Is that possible?

--What would be the process for making such a change? The system does not currently support the use of only four digits of the SSN. If a state wants such a change, the process is to submit a request to the S2S Governance Committee. The S2S Governance Committee consists of representatives of all the states participating in S2S, and is in full control of the system. The S2S Governance Committee will then evaluate the request and determine the best course of action.

--Would you guys like to respond to concerns raised by some legislators here that allowing five digits of Alaskans' Social Security numbers to be stored in a non-DMV database poses privacy risks, given that many Alaskans have the same three numbers as a prefix for their Social Security numbers?

Any PII stored in any information system poses a privacy risk. The challenge is to find a solution that supports the function of the system while at the same time maximizing the protection of PII. We believe that the current system design has found this balance.

More to the question, the same argument (that many Alaskans have the same three numbers as the start of their SSNs) can be made for any other state. This situation was already known and understood during the initial design of the system. At that time it was determined that using the last five digits was providing for the minimization of distribution of PII as mentioned above. Existing solution maximized achievement of the various design requirements, including privacy requirements.

Lastly, it should be noted that AAMVA is a nonprofit member organization. That is, AAMVA is "owned" by the DMVs. The AAMVA Board of Directors is made up of DMV representatives. The list of pointer records therefore could be seen as a logical and operational part of each DMV's own systems.

Subject: Time sensitive: Alaskan newspaper request for information

Importance: High

Marla / Chrissy,

We received a request for information on S2S from an Alaskan newspaper yesterday. Below, our proposed response (our answers are highlighted in green), with the original request lower down. The newspaper asked that we respond before 1pm EDT today. Do you have any input or comments on the proposed response?

Thanks,

Loffie

--How many individuals' records are currently stored by State-to-State? State-to-State administers approximately 36 million pointers. These pointers contain the minimum information necessary to identify records maintained in each DMV's own database. Each person's full record is maintained only in a DMV's database. The function of a pointer is to "point to" the full record.

--Can you describe what security measures protect the personal information stored by State-to-State? The response to Question 7 in Commissioner Fischer's letter to Senator MacKinnon already describes the salient security features of the system. What can be added is that security has been a design requirement from Day 1, and that applicable FISMA and NIST standards have been and are being followed to ensure adequate protection of, among others, all data.

--Why are partial Social Security #s needed to make the system work? I.e., why couldn't it work just by using names/birthdates/less sensitive information? Minimizing the distribution of Personally Identifiable Information (PII) (such as Name, DOB and SSN) was one of the design principles of the system. A study performed during the initial design of the system concluded that using only Name and DOB to identify an individual would lead to more PII being exchanged than if the SSN was also used. The reason is as follows: The goal of the system is to ensure that a person has only one driver's license, and only one Real ID card. If a state (say Alaska) wants to issue a DL to an applicant, AK has to determine if the person already has a DL in another state. AK does so by submitting an inquiry to the system using the person's identifying information. The system then responds with the identifying information of all the individuals

in the system whose PII is a match to the information AK submitted. If only the Name and DOB were available to search on, AK would receive more records back than if the SSN was also available to search on. Including the SSN thus limits the unnecessary dissemination of PII to AK. And in the reverse, including the SSN minimizes the unnecessary dissemination of PII of Alaskan drivers to other states.

--Alaska's DMV wrote a letter to AAMVA yesterday ([see page 4 here](#)) asking about the possibility of State-to-State using four digits of peoples' Social Security numbers rather than five.

--Is that possible?

--What would be the process for making such a change? The system does not currently support the use of only four digits of the SSN. If a state wants such a change, the process is to submit a request to the S2S Governance Committee. The S2S Governance Committee consists of representatives of all the states participating in S2S, and is in full control of the system. The S2S Governance Committee will then evaluate the request and determine the best course of action.

--Would you guys like to respond to concerns raised by some legislators here that allowing five digits of Alaskans' Social Security numbers to be stored in a non-DMV database poses privacy risks, given that many Alaskans have the same three numbers as a prefix for their Social Security numbers?

Any PII stored in any information system poses a privacy risk. The challenge is to find a solution that supports the function of the system while at the same time maximizing the protection of PII. We believe that the current system design has found this balance.

More to the question, the same argument (that many Alaskans have the same three numbers as the start of their SSNs) can be made for any other state. This situation was already known and understood during the initial design of the system. At that time it was determined that using the last five digits was providing for the minimization of distribution of PII as mentioned above existing solution maximized achievement of the various design requirements, including privacy requirements.

Lastly, it should be noted that AAMVA is a nonprofit member organization. That is, AAMVA is "owned" by the DMVs. The AAMVA Board of Directors is made up of DMV representatives. The list of pointer records therefore could be seen as a logical and operational part of each DMV's own systems.

Just testing sending this out to see if the encryption works for future reference.

Loffie, thank you for taking the break to look at this stuff with me. I tested your suggestion/theory and think you are right. I modified my programming and THINK it will work better. I'll let you know when I put it in practice on Monday.

So let me know if this document (which I got from PY last week) is being returned to you encrypted. I AM sending it using the application, not email. Though I am pretty sure that's what I did last time...but that was a month ago and I've slept since then!!!

Good conference everyone, and have a lovely weekend!!

Mina

Marla,

Please see our response below, highlighted in yellow.

We were curious though about the context of the second question. Do you know what the legislator's concern is?

If you happen to come across anything published by the Alaska Dispatch News after our exchange with them yesterday, please be so kind as to send us the link.

Thanks,

Loffie Jordaen

Subject: RE: Time sensitive: Alaskan newspaper request for information

Hello,

We had a few more questions from a legislator.

Does AAMVA use any contractors with access to the S2S data? AAMVA does from time to time make use of outside specialist companies to perform security evaluations of the system.

Does AAMVA use a private datacenter? I think I saw a drawing that you use one with a backup? AAMVA is using top-tier data center providers to host its systems.

Thanks!!!

Subject: Time sensitive: Alaskan newspaper request for information

Marla / Chrissy,

We received a request for information on S2S from an Alaskan newspaper yesterday. Below, our proposed response (our answers are highlighted in green), with the original request lower down. The newspaper asked that we respond before 1pm EDT today. Do you have any input or comments on the proposed response?

Thanks,

Loffie

--How many individuals' records are currently stored by State-to-State? State-to-State administers approximately 36 million pointers. These pointers contain the minimum information necessary to identify records maintained in each DMV's own database. Each person's full record is maintained only in a DMV's database. The function of a pointer is to "point to" the full record.

--Can you describe what security measures protect the personal information stored by State-to-State? The response to Question 7 in Commissioner Fischer's letter to Senator MacKinnon already describes the salient security features of the system. What can be added is that security has been a design requirement from Day 1, and that applicable FISMA and NIST standards have been and are being followed to ensure adequate protection of, among others, all data.

--Why are partial Social Security #s needed to make the system work? I.e., why couldn't it work just by using names/birthdates/less sensitive information? Minimizing the distribution of Personally Identifiable Information (PII) (such as Name, DOB and SSN) was one of the design principles of the system. A study performed during the initial design of the system concluded that using only Name and DOB to identify an individual would lead to more PII being exchanged than if the SSN was also used. The reason is as follows: The goal of the system is to ensure that a person has only one driver's license, and only one Real ID card. If a state (say Alaska) wants to issue a DL to an applicant, AK has to determine if the person already has a DL in another state. AK does so by submitting an inquiry to the system using the person's identifying information. The system then responds with the identifying information of all the individuals in the system whose PII is a match to the information AK submitted. If only the Name and DOB were available to search on, AK would receive more records back than if the SSN was also available to search on. Including the SSN thus limits the unnecessary dissemination of PII to AK. And in the reverse, including the SSN minimizes the unnecessary dissemination of PII of Alaskan drivers to other states.

--Alaska's DMV wrote a letter to AAMVA yesterday ([see page 4 here](#)) asking about the possibility of State-to-State using four digits of peoples' Social Security numbers rather than five.

--Is that possible?

--What would be the process for making such a change? The system does not currently support the use of only four digits of the SSN. If a state wants such a change, the process is to submit a request to the S2S Governance Committee. The S2S Governance Committee consists of representatives of all the states participating in S2S, and is in full control of the system. The S2S Governance Committee will then evaluate the request and determine the best course of action.

--Would you guys like to respond to concerns raised by some legislators here that allowing five digits of Alaskans' Social Security numbers to be stored in a non-DMV database poses privacy risks, given that many Alaskans have the same three numbers as a prefix for their Social Security numbers?

Any PII stored in any information system poses a privacy risk. The challenge is to find a solution that supports the function of the system while at the same time maximizing the protection of PII. We believe that the current system design has found this balance.

More to the question, the same argument (that many Alaskans have the same three numbers as the start of their SSNs) can be made for any other state. This was already known and understood during the initial design of the system. At that time it was determined that the existing solution maximized achievement of the various design requirements, including privacy requirements. Lastly, it should be noted that AAMVA is a nonprofit member organization. That is, AAMVA is "owned" by the DMVs. The AAMVA Board of Directors is made up of DMV representatives. The list of pointer records therefore could be seen as a logical and operational part of each DMV's own systems.

Hi Loffie,

Thanks for the note. I'd prefer to have a telephone conversation -- my number is 907-793-0312 -- but if that's not possible, here are some questions:

- How many individuals' records are currently stored by State-to-State?
- Can you describe what security measures protect the personal information stored by State-to-State?
- Why are partial Social Security #s needed to make the system work? I.e., why couldn't it work just by using names/birthdates/less sensitive information?
- Alaska's DMV wrote a letter to AAMVA yesterday ([see page 4 here](#)) asking about the possibility of State-to-State using four digits of peoples' Social Security numbers rather than five.
 - Is that possible?
 - What would be the process for making such a change?
- Would you guys like to respond to concerns raised by some legislators here that allowing five digits of Alaskans' Social Security numbers to be stored in a non-DMV database poses privacy risks, given that many Alaskans have the same three numbers as a prefix for their Social Security numbers?

Thank you,
Nat

The response to Question 7 in Commissioner Fischer's letter to Senator MacKinnon already describes the salient security features of the system. What can be added is that security has been a design requirement from Day 1, and that applicable FISMA and NIST standards have been and are being followed to ensure adequate protection of, among others, all data.

--Why are partial Social Security #s needed to make the system work? I.e., why couldn't it work just by using names/birthdates/less sensitive information?

Minimizing the distribution of Personally Identifiable Information (PII) (such as Name, DOB and SSN) was one of the design principles of the system. A study performed during the initial design of the system concluded that using only Name and DOB to identify an individual would lead to more PII being exchanged than if the SSN was also used. The reason is as follows: The goal of the system is to ensure that a person has only one driver's license, and only one Real ID card. If a state (say Alaska) wants to issue a DL to an applicant, AK has to determine if the person already has a DL in another state. AK does so by submitting an inquiry to the system using the person's identifying information. The system then responds with the identifying information of all the individuals in the system whose PII is a match to the information AK submitted. If only the Name and DOB were available to search on, AK would receive more records back than if the SSN was also available to search on. Including the SSN thus limits the unnecessary dissemination of PII to AK. And in the reverse, including the SSN minimizes the unnecessary dissemination of PII of Alaskan drivers to other states.

--Alaska's DMV wrote a letter to AAMVA yesterday ([see page 4 here](#)) asking about the possibility of State-to-State using four digits of peoples' Social Security numbers rather than five.

--Is that possible?

--What would be the process for making such a change?

The system does not currently support the use of only four digits of the SSN. If a state wants such a change, the process is to submit a request to the S2S Governance Committee. The S2S Governance Committee consists of representatives of all the states participating in S2S, and is in full control of the system. The S2S Governance Committee will then evaluate the request and determine the best course of action.

--Would you guys like to respond to concerns raised by some legislators here that allowing five digits of Alaskans' Social Security numbers to be stored in a non-DMV database poses privacy risks, given that many Alaskans have the same three numbers as a prefix for their Social Security numbers?

This situation was already known and understood during the initial design of the system. At that time it was determined that using the last five digits was providing for the minimization of distribution of PII as mentioned above. Lastly, it should be noted that AAMVA is a nonprofit member organization. That is, AAMVA is "owned" by the DMVs. The AAMVA Board of Directors is made up of DMV representatives. The list of pointer records therefore could be seen as a logical and operational part of each DMV's own systems.

--Is it right that S2S just stores names/birthdates/partial SSNs, or are there other types of pointer records?

S2S contains only one type of pointer, and each pointer contains a Name, DOB and partial SSN.

--Is each of the 36 million pointer records for a single individual? Or would each individual have three pointer records - one for partial SSN/birthdate/name?

Each pointer represents a single credential (i.e. a driver's license or identification card).

--Are the birthdates and names shortened in the database, or are those full and it's just SSNs that are shortened?

Names and dates of birth associated with a pointer are not shortened. However, if a name exceeds the relevant field lengths (40, 35 and 40 characters respectively for the First, Middle and Last names), the name is truncated to fit within the field.

Hello,

I got this response back.

Does AAMVA use any contractors with access to the S2S data? AAMVA does from time to time make use of outside specialist companies to perform security evaluations of the system.

Does AAMVA use a private datacenter? I think I saw a drawing that you use one with a backup? AAMVA is using top-tier data center providers to host its systems.

Martha Irwin Award for Lifetime Achievement in Highway Safety Submissions Due April 15!

April 15th is not just tax day...it's also the **last day to submit nominations** for the Martha Irwin Award for Lifetime Achievement in Highway Safety. This award is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for achievement in highway safety in [Motor Vehicle Administration](#) (MVA) and one for achievement in highway safety in [Law Enforcement](#) (LE). Visit the Safety Awards category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. Again, **award submissions and accompanying materials must be received by AAMVA by April 15, 2017**. All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet](#).

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed.

This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group.

For more information about the Working Group, please contact [Cathie Curtis](#), (207) 395-4100. If you are interested in applying for the working group, please [complete the application](#) and send to Dianne Graham at committees@aamva.org **by Friday, April 21**.

Martha Irwin Award for Lifetime Achievement in Highway Safety Submissions Due April 15!

April 15th is not just tax day...it's also the **last day to submit nominations** for the Martha Irwin Award for Lifetime Achievement in Highway Safety. This award is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for achievement in highway safety in [Motor Vehicle Administration](#) (MVA) and one for achievement in highway safety in [Law Enforcement](#) (LE). Visit the Safety Awards category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. Again, **award submissions and accompanying materials must be received by AAMVA by April 15, 2017**. All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet](#).

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed.

This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group.

For more information about the Working Group, please contact [Cathie Curtis](#), (207) 395-4100. If you are interested in applying for the working group, please [complete the application](#) and send to Dianne Graham at committees@aamva.org **by Friday, April 21**.

Open RFP's will be included in AAMVA's Regional News and The Week In Review newsletters to provide maximum exposure for jurisdictional procurements.

Autonomous Cars Could Be 25% of Driving Market by 2030, As DMV Gets Ready to Enact New State Regulations (California)

A new study has found that up to 25 percent of all U.S. driving could be done by autonomous electric cars by 2030, according to the Boston Consulting Group, which was looking at how self-driving cars could help save drivers and cities money. [Read the full article in bizjournals.com.](#)

How California Is Trying to Keep Autonomous Vehicle Development on Track

After California's Department of Motor Vehicles recently proposed new regulations governing the testing and deployment of autonomous vehicles, many were left to wonder: Will this help retain the state's status as a testing and deployment ground for the technology, and will it make California safer? [Read the full article on www.rand.org.](http://www.rand.org)

End of The Road for California's Traffic Amnesty Program

A minor traffic fine in California can escalate quickly to hundreds of dollars. For low-income drivers, that can mean license suspensions and even jail time for failing to pay or driving without a valid license, a practice the U.S. Department of Justice has warned states against. [Read the full article in revealnews.org.](http://www.revealnews.org)

DMV to Accept U.S. Passport Card for License, ID Card (California)

The California Department of Motor vehicles will now accept a valid U.S. passport from those applying for a first time drivers license or identification card. [Read the full article in visaliatimesdelta.com.](http://www.visaliatimesdelta.com)

Visit the Safety Awards category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. Again, **award submissions and accompanying materials must be received by AAMVA by April 15, 2017**. All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet](#).

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed.

This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group.

For more information about the Working Group, please contact [Cathie Curtis](#), (207) 395-4100. If you are interested in applying for the working group, please [complete the application](#) and send to Dianne Graham at committees@aamva.org **by Friday, April 21**.

Autonomous Cars Could Be 25% of Driving Market by 2030, As DMV Gets Ready to Enact New State Regulations (California)

A new study has found that up to 25 percent of all U.S. driving could be done by autonomous electric cars by 2030, according to the Boston Consulting Group, which was looking at how self-driving cars could help save drivers and cities money. [Read the full article in bizjournals.com.](#)

How California Is Trying to Keep Autonomous Vehicle Development on Track

After California's Department of Motor Vehicles recently proposed new regulations governing the testing and deployment of autonomous vehicles, many were left to wonder: Will this help retain the state's status as a testing and deployment ground for the technology, and will it make California safer? [Read the full article on www.rand.org.](http://www.rand.org)

End of The Road for California's Traffic Amnesty Program

A minor traffic fine in California can escalate quickly to hundreds of dollars. For low-income drivers, that can mean license suspensions and even jail time for failing to pay or driving without a valid license, a practice the U.S. Department of Justice has warned states against. [Read the full article in revealnews.org.](http://www.revealnews.org)

DMV to Accept U.S. Passport Card for License, ID Card (California)

The California Department of Motor vehicles will now accept a valid U.S. passport from those applying for a first time drivers license or identification card. [Read the full article in visaliatimesdelta.com.](http://www.visaliatimesdelta.com)

Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed.

This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group.

For more information about the Working Group, please contact [Cathie Curtis](#), (207) 395-4100. If you are interested in applying for the working group, please [complete the application](#) and send to Dianne Graham at committees@aamva.org **by Friday, April 21**.

Autonomous Cars Could Be 25% of Driving Market by 2030, As DMV Gets Ready to Enact New State Regulations (California)

A new study has found that up to 25 percent of all U.S. driving could be done by autonomous electric cars by 2030, according to the Boston Consulting Group, which was looking at how self-driving cars could help save drivers and cities money. [Read the full article in bizjournals.com.](#)

How California Is Trying to Keep Autonomous Vehicle Development on Track

After California's Department of Motor Vehicles recently proposed new regulations governing the testing and deployment of autonomous vehicles, many were left to wonder: Will this help retain the state's status as a testing and deployment ground for the technology, and will it make California safer? [Read the full article on www.rand.org.](http://www.rand.org)

End of The Road for California's Traffic Amnesty Program

A minor traffic fine in California can escalate quickly to hundreds of dollars. For low-income drivers, that can mean license suspensions and even jail time for failing to pay or driving without a valid license, a practice the U.S. Department of Justice has warned states against. [Read the full article in revealnews.org.](#)

DMV to Accept U.S. Passport Card for License, ID Card (California)

The California Department of Motor vehicles will now accept a valid U.S. passport from those applying for a first time drivers license or identification card. [Read the full article in visaliatimesdelta.com.](#)

Autonomous Cars Could Be 25% of Driving Market by 2030, As DMV Gets Ready to Enact New State Regulations (California)

A new study has found that up to 25 percent of all U.S. driving could be done by autonomous electric cars by 2030, according to the Boston Consulting Group, which was looking at how self-driving cars could help save drivers and cities money. [Read the full article in bizjournals.com.](#)

How California Is Trying to Keep Autonomous Vehicle Development on Track

After California's Department of Motor Vehicles recently proposed new regulations governing the testing and deployment of autonomous vehicles, many were left to wonder: Will this help retain the state's status as a testing and deployment ground for the technology, and will it make California safer? [Read the full article on www.rand.org.](http://www.rand.org)

End of The Road for California's Traffic Amnesty Program

A minor traffic fine in California can escalate quickly to hundreds of dollars. For low-income drivers, that can mean license suspensions and even jail time for failing to pay or driving without a valid license, a practice the U.S. Department of Justice has warned states against. [Read the full article in revealnews.org.](#)

DMV to Accept U.S. Passport Card for License, ID Card (California)

Martha Irwin Award for Lifetime Achievement in Highway Safety Submissions Due April 15!

April 15th is not just tax day...it's also the **last day to submit nominations** for the Martha Irwin Award for Lifetime Achievement in Highway Safety. This award is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for achievement in highway safety in [Motor Vehicle Administration](#) (MVA) and one for achievement in highway safety in [Law Enforcement](#) (LE). Visit the Safety Awards category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. Again, **award submissions and accompanying materials must be received by AAMVA by April 15, 2017**. All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet](#).

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed.

This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group.

For more information about the Working Group, please contact [Cathie Curtis](#), (207) 395-4100. If you are interested in applying for the working group, please [complete the application](#) and send to Dianne Graham at committees@aamva.org **by Friday, April 21**.

Autonomous Cars Could Be 25% of Driving Market by 2030, As DMV Gets Ready to Enact New State Regulations (California)

A new study has found that up to 25 percent of all U.S. driving could be done by autonomous electric cars by 2030, according to the Boston Consulting Group, which was looking at how self-driving cars could help save drivers and cities money. [Read the full article in bizjournals.com.](#)

How California Is Trying to Keep Autonomous Vehicle Development on Track

After California's Department of Motor Vehicles recently proposed new regulations governing the testing and deployment of autonomous vehicles, many were left to wonder: Will this help retain the state's status as a testing and deployment ground for the technology, and will it make California safer? [Read the full article on www.rand.org.](#)

End of The Road for California's Traffic Amnesty Program

A minor traffic fine in California can escalate quickly to hundreds of dollars. For low-income drivers, that can mean license suspensions and even jail time for failing to pay or driving without a valid license, a practice the U.S. Department of Justice has warned states against. [Read the full article in revealnews.org.](#)

DMV to Accept U.S. Passport Card for License, ID Card (California)

Martha Irwin Award for Lifetime Achievement in Highway Safety Submissions Due April 15!

April 15th is not just tax day...it's also the **last day to submit nominations** for the Martha Irwin Award for Lifetime Achievement in Highway Safety. This award is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for achievement in highway safety in [Motor Vehicle Administration](#) (MVA) and one for achievement in highway safety in [Law Enforcement](#) (LE). Visit the Safety Awards category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. Again, **award submissions and accompanying materials must be received by AAMVA by April 15, 2017**. All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet](#).

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed.

This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group.

For more information about the Working Group, please contact [Cathie Curtis](#), (207) 395-4100. If you are interested in applying for the working group, please [complete the application](#) and send to Dianne Graham at committees@aamva.org **by Friday, April 21**.

Martha Irwin Award for Lifetime Achievement in Highway Safety Submissions Due April 15!
April 15th is not just tax day...it's also the **last day to submit nominations** for the Martha Irwin Award for Lifetime Achievement in Highway Safety. This award is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for achievement in highway safety in [Motor Vehicle Administration](#) (MVA) and one for achievement in highway safety in [Law Enforcement](#) (LE). Visit the Safety Awards category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. Again, **award submissions and accompanying materials must be received by AAMVA by April 15, 2017**. All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet](#).

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed.

This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group.

For more information about the Working Group, please contact [Cathie Curtis](#), (207) 395-4100. If you are interested in applying for the working group, please [complete the application](#) and send to Dianne Graham at committees@aamva.org **by Friday, April 21.**

Autonomous Cars Could Be 25% of Driving Market by 2030, As DMV Gets Ready to Enact New State Regulations (California)

A new study has found that up to 25 percent of all U.S. driving could be done by autonomous electric cars by 2030, according to the Boston Consulting Group, which was looking at how self-driving cars could help save drivers and cities money. [Read the full article in bizjournals.com.](#)

How California Is Trying to Keep Autonomous Vehicle Development on Track

After California's Department of Motor Vehicles recently proposed new regulations governing the testing and deployment of autonomous vehicles, many were left to wonder: Will this help retain the state's status as a testing and deployment ground for the technology, and will it make California safer? [Read the full article on www.rand.org.](#)

End of The Road for California's Traffic Amnesty Program

A minor traffic fine in California can escalate quickly to hundreds of dollars. For low-income drivers, that can mean license suspensions and even jail time for failing to pay or driving without a valid license, a practice the U.S. Department of Justice has warned states against. [Read the full article in revealnews.org.](#)

DMV to Accept U.S. Passport Card for License, ID Card (California)

The California Department of Motor vehicles will now accept a valid U.S. passport from those applying for a first time drivers license or identification card. [Read the full article in visaliatimesdelta.com.](#)

Subject: ALASKA DIGITAL IMAGE CONNECTION DOWN | AAMVA TICKET 161461

Alaska,

Please check your Digital Image connection it's been down since 21:17:13 on 04/13/17. Is there an outage or maintenance that may be the cause? Mrs. Peters, please forward this email to someone that can help, if it isn't you. AAMVA has gotten any response from our request for information on this issue.

Thank you

Maria Grimes | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd, Ste 700, Arlington Va. 22203

All,

Welcome back from St. Louis!

Attached is the electronic version of the meeting expense report for your use in completing your meeting reimbursement.

I have also attached the attendee list from the meeting. There are separate lists for jurisdictional, federal government, industry and AAMVA attendees. In addition, I have attached an excel list with the contact information for the FMCSA attendees that could not attend the St. Louis meeting.

Let me know if anyone has any questions.

Kevin

Expense Report Procedures

1. Place all expenses for a calendar day on one (1) line only of the Expense Report. Do not add additional lines to the Expense Report
2. Airfare and baggage fees are to be entered on the same line on the Expense Report.
3. All miscellaneous expenses are part of the daily per diem amount. Do not add additional miscellaneous expenses to the Miscellaneous column of the Expense Report.
 - a. Per diem amount for travel days is \$40.50
 - b. Per diem amount for meeting days is \$54.00. Please note: If you leave St. Louis the afternoon or evening of 4/13 the per diem amount for that day is \$40.50 and not \$54.00 as it is deemed a travel day. You will need to change the per diem amount on 4/13 to \$40.50 and delete the \$40.50 amount on 4/14.
 - c. Taxi expenses for travelling to/from dinner each evening are not reimbursable expenses. Those expenses are personal and will not be reimbursed.
 - d. Tips for meals and other reasons are not reimbursable separately. They are part of the per diem reimbursement. Do not list tips separately as they will not be reimbursed.
4. A receipt is required for every expense except per diem. Do not take a picture of the receipts and attach multiple files to your electronic Expense Report. Tape each receipt to an 8.5 x 11 inch sheet of paper and SCAN all receipts into 1 file. Submit that file along with your electronic Expense Report for processing.
5. Expense reports submitted without the required receipts will be returned to the traveler. This will delay your reimbursement several weeks.
6. Be sure to completely fill out the top of the Expense Report with your name, email address, phone number, Payee name, and mailing address.
7. Be sure to sign the Expense Report. Your reimbursement cannot be processed without your signature.
8. Failure to completely fill out or sign the Expense Report will cause the form to be sent back to you for correction. This will add several weeks to your reimbursement.

Subject: NRII Volunteer Testing

Hello Mina,

I hope you had safe travels home and a great Easter weekend ☺!

Thank you for offering to help with the NRII Integration Testing. Considering how aggressive we have managed to be so far I anticipate testing with NR ahead of schedule. Currently NR is scheduled to test from 09/08-12/29, however we are about 2 months ahead as far as the specifications go and could be looking to begin testing with NR at a sooner date (sometime in July/Aug).

You are on the front lines so probably don't have many questions but if you can think of anything please do not hesitate to reach out.

~ Mindy

Hi Mindy,

Thank you for your note. I hope you had a lovely weekend also!

If we can test in July/August, we should be able to do this. However, I have been just told that we will not be able to test any later than that. So if it's NOT early, please plan to test with other states.

Sorry, I have been overridden on this 😊

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

New Hampshire DMV to Begin Phase-In of Newly Designed License and Non-Driver ID

The New Hampshire Division of Motor Vehicles (DMV) announces a new look to the New Hampshire Driver License and Non-Driver Identification card. The new design will be phased in over five years and requires no additional action or cost on the part of New Hampshire citizens. The new cards include state-of-the-art security features not available during the last re-design in 2008 and will make the New Hampshire license one of the most advanced in the nation. [Read more here.](#)

Manitoba Public Insurance Demonstrates the Power of Choice through Virtual Reality

With the help of leading edge technology, Manitoba Public Insurance is launching a new virtual reality (VR) experience to tackle three critical road safety issues facing young drivers in Manitoba, the Minister of Crown Services and the Corporation announced. Through the use of VR headsets, simulated vehicles and intricate sensor systems, DRIVER-X allows participants to explore a three-dimensional VR environment with multiple story lines that require them to make important, life-changing decisions about distracted driving, impaired driving, and speeding. Nevada DMV Confident in Voter Application Procedures; Cites Federal Compliance with Current Policies and Procedures

The Nevada Department of Motor Vehicles received a letter from the Nevada Secretary of State's Office on Friday evening, questioning the voter registration practices currently in place by the Department. In a response sent on Saturday, the Department stated, "Your letter comes as a complete surprise as you and your office have reviewed, contributed to, and approved the processes you are expressing concerns about." The Department is one of several pass-through organizations in the state that accepts voter registration applications in accordance with the National Voter Registration Act (NVRA) of 1993. The NVRA, commonly referred to as the federal Motor Voter Law, requires each state's motor vehicle driver's license application and/or renewal to also serve as a simultaneous voter registration application. When the DMV receives an application from a customer, it

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

2016 IACP/Motorola Trooper of the Year

Oregon State Police Senior Trooper Nic Cederberg was awarded the 2016 IACP/Motorola Trooper of the Year award at a banquet during the Division of State & Provincial Police midyear meeting held in Phoenix April 11 - 13. Pictured are Senior Trooper Cederberg and S&P General Chair Tennessee Highway Patrol Colonel Tracy Trott after the winner was announced among the four regional finalists. AAMVA Director of

Law Enforcement Brian Ursino, as Chair of the S&P Alumni Section, was one of the judges in this year's Trooper of the Year competition. Congratulations also go to the other three regional winners: Trooper Brian Costanza, Oklahoma Highway Patrol; First Sergeant E.J. Kelly, Virginia State Police; and Trooper Paul Moak, Illinois State Police. We thank you all for your service and courage!

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

New Hampshire DMV to Begin Phase-In of Newly Designed License and Non-Driver ID

The New Hampshire Division of Motor Vehicles (DMV) announces a new look to the New Hampshire Driver License and Non-Driver Identification card. The new design will be phased in over five years and requires no additional action or cost on the part of New Hampshire citizens. The new cards include state-of-the-art security features not available during the last re-design in 2008 and will make the New Hampshire license one of the most advanced in the nation. [Read more here](#).

Manitoba Public Insurance Demonstrates the Power of Choice through Virtual Reality

With the help of leading edge technology, Manitoba Public Insurance is launching a new virtual reality (VR) experience to tackle three critical road safety issues facing young drivers in Manitoba, the Minister of Crown Services and the Corporation announced. Through the use of VR headsets, simulated vehicles and intricate sensor systems, DRIVER-X allows participants to explore a three-dimensional VR environment with multiple story lines that require them to make important, life-changing decisions about distracted driving, impaired driving, and speeding. Nevada DMV Confident in Voter Application Procedures; Cites Federal Compliance with Current Policies and Procedures

The Nevada Department of Motor Vehicles received a letter from the Nevada Secretary of State's Office on Friday evening, questioning the voter registration practices currently in place by the Department. In a response sent on Saturday, the Department stated, "Your letter comes as a complete surprise as you and your office have reviewed, contributed to, and approved the processes you are expressing concerns about." The Department is one of several pass-through organizations in the state that accepts voter registration applications in accordance with the National Voter Registration Act (NVRA) of 1993. The NVRA, commonly referred to as the federal Motor Voter Law, requires each state's motor vehicle driver's license application and/or renewal to also serve as a simultaneous voter registration application. When the DMV receives an application from a customer, it

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

New Hampshire DMV to Begin Phase-In of Newly Designed License and Non-Driver ID

The New Hampshire Division of Motor Vehicles (DMV) announces a new look to the New Hampshire Driver License and Non-Driver Identification card. The new design will be phased in over five years and requires no additional action or cost on the part of New Hampshire citizens. The new cards include state-of-the-art security features not available during the last re-design in 2008 and will make the New Hampshire license one of the most advanced in the nation. [Read more here](#).

Manitoba Public Insurance Demonstrates the Power of Choice through Virtual Reality

With the help of leading edge technology, Manitoba Public Insurance is launching a new virtual reality (VR) experience to tackle three critical road safety issues facing young drivers in Manitoba, the Minister of Crown Services and the Corporation announced. Through the use of VR headsets, simulated vehicles and intricate sensor systems, DRIVER-X allows participants to explore a three-dimensional VR environment with multiple story lines that require them to make important, life-changing decisions about distracted driving, impaired driving, and speeding. Nevada DMV Confident in Voter Application Procedures; Cites Federal Compliance with Current Policies and Procedures

The Nevada Department of Motor Vehicles received a letter from the Nevada Secretary of State's Office on Friday evening, questioning the voter registration practices currently in place by the Department. In a response sent on Saturday, the Department stated, "Your letter comes as a complete surprise as you and your office have reviewed, contributed to, and approved the processes you are expressing concerns about." The Department is one of several pass-through organizations in the state that accepts voter registration applications in accordance with the National Voter Registration Act (NVRA) of 1993. The NVRA, commonly referred to as the federal Motor Voter Law, requires each state's motor vehicle driver's license application and/or renewal to also serve as a simultaneous voter registration application. When the DMV receives an application from a customer, it

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

New Hampshire DMV to Begin Phase-In of Newly Designed License and Non-Driver ID

The New Hampshire Division of Motor Vehicles (DMV) announces a new look to the New Hampshire Driver License and Non-Driver Identification card. The new design will be phased in over five years and requires no additional action or cost on the part of New Hampshire citizens. The new cards include state-of-the-art security features not available during the last re-design in 2008 and will make the New Hampshire license one of the most advanced in the nation. [Read more here](#).

Manitoba Public Insurance Demonstrates the Power of Choice through Virtual Reality

With the help of leading edge technology, Manitoba Public Insurance is launching a new virtual reality (VR) experience to tackle three critical road safety issues facing young drivers in Manitoba, the Minister of Crown Services and the Corporation announced. Through the use of VR headsets, simulated vehicles and intricate sensor systems, DRIVER-X allows participants to explore a three-dimensional VR environment with multiple story lines that require them to make important, life-changing decisions about distracted driving, impaired driving, and speeding. Nevada DMV Confident in Voter Application Procedures; Cites Federal Compliance with Current Policies and Procedures

The Nevada Department of Motor Vehicles received a letter from the Nevada Secretary of State's Office on Friday evening, questioning the voter registration practices currently in place by the Department. In a response sent on Saturday, the Department stated, "Your letter comes as a complete surprise as you and your office have reviewed, contributed to, and approved the processes you are expressing concerns about." The Department is one of several pass-through organizations in the state that accepts voter registration applications in accordance with the National Voter Registration Act (NVRA) of 1993. The NVRA, commonly referred to as the federal Motor Voter Law, requires each state's motor vehicle driver's license application and/or renewal to also serve as a simultaneous voter registration application. When the DMV receives an application from a customer, it

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

New Hampshire DMV to Begin Phase-In of Newly Designed License and Non-Driver ID

The New Hampshire Division of Motor Vehicles (DMV) announces a new look to the New Hampshire Driver License and Non-Driver Identification card. The new design will be phased in over five years and requires no additional action or cost on the part of New Hampshire citizens. The new cards include state-of-the-art security features not available during the last re-design in 2008 and will make the New Hampshire license one of the most advanced in the nation. [Read more here](#).

Manitoba Public Insurance Demonstrates the Power of Choice through Virtual Reality

With the help of leading edge technology, Manitoba Public Insurance is launching a new virtual reality (VR) experience to tackle three critical road safety issues facing young drivers in Manitoba, the Minister of Crown Services and the Corporation announced. Through the use of VR headsets, simulated vehicles and intricate sensor systems, DRIVER-X allows participants to explore a three-dimensional VR environment with multiple story lines that require them to make important, life-changing decisions about distracted driving, impaired driving, and speeding. Nevada DMV Confident in Voter Application Procedures; Cites Federal Compliance with Current Policies and Procedures

The Nevada Department of Motor Vehicles received a letter from the Nevada Secretary of State's Office on Friday evening, questioning the voter registration practices currently in place by the Department. In a response sent on Saturday, the Department stated, "Your letter comes as a complete surprise as you and your office have reviewed, contributed to, and approved the processes you are expressing concerns about." The Department is one of several pass-through organizations in the state that accepts voter registration applications in accordance with the National Voter Registration Act (NVRA) of 1993. The NVRA, commonly referred to as the federal Motor Voter Law, requires each state's motor vehicle driver's license application and/or renewal to also serve as a simultaneous voter registration application. When the DMV receives an application from a customer, it

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

New Hampshire DMV to Begin Phase-In of Newly Designed License and Non-Driver ID

The New Hampshire Division of Motor Vehicles (DMV) announces a new look to the New Hampshire Driver License and Non-Driver Identification card. The new design will be phased in over five years and requires no additional action or cost on the part of New Hampshire citizens. The new cards include state-of-the-art security features not available during the last re-design in 2008 and will make the New Hampshire license one of the most advanced in the nation. [Read more here](#).

Manitoba Public Insurance Demonstrates the Power of Choice through Virtual Reality

With the help of leading edge technology, Manitoba Public Insurance is launching a new virtual reality (VR) experience to tackle three critical road safety issues facing young drivers in Manitoba, the Minister of Crown Services and the Corporation announced. Through the use of VR headsets, simulated vehicles and intricate sensor systems, DRIVER-X allows participants to explore a three-dimensional VR environment with multiple story lines that require them to make important, life-changing decisions about distracted driving, impaired driving, and speeding. Nevada DMV Confident in Voter Application Procedures; Cites Federal Compliance with Current Policies and Procedures

The Nevada Department of Motor Vehicles received a letter from the Nevada Secretary of State's Office on Friday evening, questioning the voter registration practices currently in place by the Department. In a response sent on Saturday, the Department stated, "Your letter comes as a complete surprise as you and your office have reviewed, contributed to, and approved the processes you are expressing concerns about." The Department is one of several pass-through organizations in the state that accepts voter registration applications in accordance with the National Voter Registration Act (NVRA) of 1993. The NVRA, commonly referred to as the federal Motor Voter Law, requires each state's motor vehicle driver's license application and/or renewal to also serve as a simultaneous voter registration application. When the DMV receives an application from a customer, it

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

Massachusetts, New Hampshire, North Dakota, Georgia, and AAMVA.

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

New Hampshire DMV to Begin Phase-In of Newly Designed License and Non-Driver ID

The New Hampshire Division of Motor Vehicles (DMV) announces a new look to the New Hampshire Driver License and Non-Driver Identification card. The new design will be phased in over five years and requires no additional action or cost on the part of New Hampshire citizens. The new cards include state-of-the-art security features not available during the last re-design in 2008 and will make the New Hampshire license one of the most advanced in the nation. Nevada DMV Confident in Voter Application Procedures; Cites Federal Compliance with Current Policies and Procedures

The Nevada Department of Motor Vehicles received a letter from the Nevada Secretary of State's Office on Friday evening, questioning the voter registration practices currently in place by the Department. In a response sent on Saturday, the Department stated, "Your letter comes as a complete surprise as you and your office have reviewed, contributed to, and approved the processes you are expressing concerns about." The Department is one of several pass-through organizations in the state that accepts voter registration applications in accordance with the National Voter Registration Act (NVRA) of 1993. The NVRA, commonly referred to as the federal Motor Voter Law, requires each state's motor vehicle driver's license application and/or renewal to also serve as a simultaneous voter registration application. When the DMV receives an application from a customer, it

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the

partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

2016 IACP/Motorola Trooper of the Year

Oregon State Police Senior Trooper Nic Cederberg was awarded the 2016 IACP/Motorola Trooper of the Year award at a banquet during the Division of State & Provincial Police midyear meeting held in Phoenix April 11 - 13. Pictured are Senior Trooper Cederberg and S&P General Chair Tennessee Highway Patrol Colonel Tracy Trott after the winner was announced among the four regional finalists. AAMVA Director of

Law Enforcement Brian Ursino, as Chair of the S&P Alumni Section, was one of the judges in this year's Trooper of the Year competition. Congratulations also go to the other three regional winners: Trooper Brian Costanza, Oklahoma Highway Patrol; First Sergeant E.J. Kelly, Virginia State Police; and Trooper Paul Moak, Illinois State Police. We thank you all for your service and courage!

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

Nevada DMV Confident in Voter Application Procedures; Cites Federal Compliance with Current Policies and Procedures

The Nevada Department of Motor Vehicles received a letter from the Nevada Secretary of State's Office on Friday evening, questioning the voter registration practices currently in place by the Department. In a response sent on Saturday, the Department stated, "Your letter comes as a complete surprise as you and your office have reviewed, contributed to, and approved the processes you are expressing concerns about." The Department is one of several pass-through organizations in the state that accepts voter registration applications in accordance with the National Voter Registration Act (NVRA) of 1993. The NVRA, commonly referred to as the federal Motor Voter Law, requires each state's motor vehicle driver's license application and/or renewal to also serve as a simultaneous voter registration application. When the DMV receives an application from a customer, it

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

2016 IACP/Motorola Trooper of the Year

Oregon State Police Senior Trooper Nic Cederberg was awarded the 2016 IACP/Motorola Trooper of the Year award at a banquet during the Division of State & Provincial Police midyear meeting held in Phoenix April 11 - 13. Pictured are Senior Trooper Cederberg and S&P General Chair Tennessee Highway Patrol Colonel Tracy Trott after the winner was announced among the four regional finalists. AAMVA Director of

Law Enforcement Brian Ursino, as Chair of the S&P Alumni Section, was one of the judges in this year's Trooper of the Year competition. Congratulations also go to the other three regional winners: Trooper Brian Costanza, Oklahoma Highway Patrol; First Sergeant E.J. Kelly, Virginia State Police; and Trooper Paul Moak, Illinois State Police. We thank you all for your service and courage!

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

New Hampshire DMV to Begin Phase-In of Newly Designed License and Non-Driver ID

The New Hampshire Division of Motor Vehicles (DMV) announces a new look to the New Hampshire Driver License and Non-Driver Identification card. The new design will be phased in over five years and requires no additional action or cost on the part of New Hampshire citizens. The new cards include state-of-the-art security features not available during the last re-design in 2008 and will make the New Hampshire license one of the most advanced in the nation. Nevada DMV Confident in Voter Application Procedures; Cites Federal Compliance with Current Policies and Procedures

The Nevada Department of Motor Vehicles received a letter from the Nevada Secretary of State's Office on Friday evening, questioning the voter registration practices currently in place by the Department. In a response sent on Saturday, the Department stated, "Your letter comes as a complete surprise as you and your office have reviewed, contributed to, and approved the processes you are expressing concerns about." The Department is one of several pass-through organizations in the state that accepts voter registration applications in accordance with the National Voter Registration Act (NVRA) of 1993. The NVRA, commonly referred to as the federal Motor Voter Law, requires each state's motor vehicle driver's license application and/or renewal to also serve as a simultaneous voter registration application. When the DMV receives an application from a customer, it

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Issues Final Rule Adjusting Civil Penalties

The Federal Motor Carrier Safety Administration (FMCSA) has issued a [final rule](#) amending the civil penalties listed in its regulations to ensure that the civil penalties assessed or enforced by the Agency reflect the statutorily mandated ranges as adjusted for inflation. This action is taken pursuant to the Federal Civil Penalties Inflation Adjustment Improvements Act of 2015. FMCSA is required to promulgate annual adjustments each year by January 15.

OMB Issues Memorandum Directing Federal Workforce Reductions

Mick Mulvaney, Director of the Office of Management and Budget (OMB) has issued an [executive memorandum](#) entitled, "Comprehensive Plan for Reforming the Federal Government and Reducing the Federal Civilian Workforce." This memorandum would require all federal agencies to begin taking immediate actions on near-term workforce reductions and scoping potential cost savings - including planning for the reduced domestic funding levels as described in the President's Fiscal Year 2018 Budget Blueprint. The memorandum would further require federal agencies develop a plan to maximize employee performance by June 30, 2017 and submit an Agency Reform Plan to OMB in September 2017 as part of the agency's FY 2019 Budget submission to OMB that includes long-term workforce reductions.

2016 IACP/Motorola Trooper of the Year

Oregon State Police Senior Trooper Nic Cederberg was awarded the 2016 IACP/Motorola Trooper of the Year award at a banquet during the Division of State & Provincial Police midyear meeting held in Phoenix April 11 - 13. Pictured are Senior Trooper Cederberg and S&P General Chair Tennessee Highway Patrol Colonel Tracy Trott after the winner was announced among the four regional finalists. AAMVA Director of

Law Enforcement Brian Ursino, as Chair of the S&P Alumni Section, was one of the judges in this year's Trooper of the Year competition. Congratulations also go to the other three regional winners: Trooper Brian Costanza, Oklahoma Highway Patrol; First Sergeant E.J. Kelly, Virginia State Police; and Trooper Paul Moak, Illinois State Police. We thank you all for your service and courage!

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

CDL Coordinators/IT Meeting

AAMVA and FMCSA held the 2017 CDL Coordinators/IT meeting in St. Louis, MO last week. Thomas Keane, Director, FMCSA's Office of Safety Programs and AAMVA President & CEO Anne Ferro welcomed the meeting attendees and emphasized the important safety role jurisdictions play in achieving CDL uniformity and compliance and the partnerships that FMCSA and the jurisdictions have created. They highlighted the important role those partnerships between state driver licensing agencies and federal regulators plays in saving lives on our nation's roads. The 3-day meeting provided a forum for federal, state and court officials to share expectations, challenges, and achievements regarding the CDL program. More than 242 state, federal and court CDL experts were in attendance to discuss national CDL issues such as compliance with the CDL Permit & Testing Rule, Medical Certification rulemakings, driver license and other MAP-21 and FAST Act requirements. The meeting also featured sessions on the relationship between the Courts and the jurisdictions and the importance of how the 2 entities must continue to work together to increase highway safety. Presentations and materials from the meeting will soon be available on the AAMVA download page.

Autonomous Vehicles Working Group Has Two Seats to Fill, Applications Now Being Accepted!

AAMVA is seeking to fill two vacancies on the [Autonomous Vehicle Working Group](#) with jurisdictional members. The purpose of the Working Group is to work with the AAMVA jurisdictions, law enforcement, federal agencies and other stakeholders to gather, organize and share information with the AAMVA community related to the development, design, testing, use and regulation of autonomous vehicles and other emerging vehicle technologies. Based on the group's research, a guidance document to assist member jurisdiction in regulating autonomous vehicles will be completed. This Working Group has been meeting for two years and is committed to at least one face-to-face meeting in 2017 and will hold several conference calls. Members of the group conduct research, draft portions of the guidance document in small groups and independently. Members may also be called upon to speak publicly about the working group. For more information about the Working Group,

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, April 18, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

New Hampshire DMV to Begin Phase-In of Newly Designed License and Non-Driver ID

The New Hampshire Division of Motor Vehicles (DMV) announces a new look to the New Hampshire Driver License and Non-Driver Identification card. The new design will be phased in over five years and requires no additional action or cost on the part of New Hampshire citizens. The new cards include state-of-the-art security features not available during the last re-design in 2008 and will make the New Hampshire license one of the most advanced in the nation. Nevada DMV Confident in Voter Application Procedures; Cites Federal Compliance with Current Policies and Procedures

The Nevada Department of Motor Vehicles received a letter from the Nevada Secretary of State's Office on Friday evening, questioning the voter registration practices currently in place by the Department. In a response sent on Saturday, the Department stated, "Your letter comes as a complete surprise as you and your office have reviewed, contributed to, and approved the processes you are expressing concerns about." The Department is one of several pass-through organizations in the state that accepts voter registration applications in accordance with the National Voter Registration Act (NVRA) of 1993. The NVRA, commonly referred to as the federal Motor Voter Law, requires each state's motor vehicle driver's license application and/or renewal to also serve as a simultaneous voter registration application. When the DMV receives an application from a customer, it

FEDERAL NEWS

DOJ Issues Prosecution Memo Prioritizing Immigration Offenses

Department of Justice Attorney General Jeff Sessions has issued [a memorandum](#) to all federal prosecutors regarding enforcement and prioritization of immigration offenses. The memo directs federal prosecutors to increase efforts prioritizing immigration offenses such as "bringing in and harboring certain aliens; improper entry by aliens; reentry of removed aliens; aggravated identity theft, fraud and misuse of visas permits and other documents; and assaulting, resisting, or impeding officers." The memo cites 18 USC 1546 with relation to fraud and misuse of visas permits and other documents. That Code citation provides that "Whoever knowingly forges, counterfeits, alters, or falsely makes any immigrant or nonimmigrant visa, permit, border crossing card, alien registration receipt card, or other document prescribed by statute or regulation for entry into or as evidence of authorized stay or employment in the United States" has committed a criminal offense.

FMCSA Announces Public Listening Session On Highly Automated Commercial Vehicles

The Federal Motor Carrier Safety Administration [announces](#) that it will hold a public listening session on April 24, 2017 at the Commercial Vehicle Safety Alliance Workshop at the Hyatt Regency Atlanta, 265 Peachtree Street NE., Atlanta, GA 30303, to solicit information on issues relating to the design, development, testing, and deployment of highly automated commercial vehicles (HACVs). The listening session will provide interested parties an opportunity to share their views and any data or analysis on this topic with Agency representatives. FMCSA will webcast the entire proceeding. FMCSA will post specific information on how to participate via the Internet on the FMCSA Web site at www.fmcsa.dot.gov in advance of the session. The listening session will be held on Monday, April 24, 2017, from 9:30 a.m. to 12:00 p.m. (EST). Comments will be accepted from in-person participants as well as comments submitted via the Internet. Comments on this notice must be received on or before July 17, 2017.

PARTNER NEWS

2016 IACP/Motorola Trooper of the Year

Oregon State Police Senior Trooper Nic Cederberg was awarded the 2016 IACP/Motorola Trooper of the Year award at a banquet during the Division of State & Provincial Police midyear meeting held in Phoenix April 11 - 13. Pictured are Senior Trooper Cederberg and S&P General Chair Tennessee Highway Patrol Colonel Tracy Trott after the winner was announced among the four regional finalists. AAMVA Director of

Law Enforcement Brian Ursino, as Chair of the S&P Alumni Section, was one of the judges in this year's Trooper of the Year competition. Congratulations also go to the other three regional winners: Trooper Brian Costanza, Oklahoma Highway Patrol; First Sergeant E.J. Kelly, Virginia State Police; and Trooper Paul Moak, Illinois State Police. We thank you all for your service and courage!

Visit <http://www.iacp.org/> for more.

New Research: Teens with Autism Spectrum Disorder Do Drive

A study conducted by Allison E. Curry, PhD and her colleagues at Children's Hospital of Philadelphia (CHOP) finds 1 in 3 adolescents with autism spectrum disorder (ASD) receive an intermediate driver's license, and the majority does so in their 17th year. This large-scale study is the first to provide detailed information on the proportion of adolescents with ASD who get licensed and the rate at which they progress through Graduated Driver Licensing. Results published in the journal *Autism* suggest that families are making the decision to pursue driving before their teens even get behind the wheel with a learner's permit. Read more about the research and access resources for families from CHOP's Center for Autism Research in the [press release](#) and a [blog post](#) from Dr. Curry.

Subject: More info from AAMVA

Hello,

I got this response back.

Does AAMVA use any contractors with access to the S2S data? **AAMVA does from time to time make use of outside specialist companies to perform security evaluations of the system.**

Does AAMVA use a private datacenter? I think I saw a drawing that you use one with a backup? **AAMVA is using top-tier data center providers to host its systems.**

Marla Thompson
Director, Division of Motor Vehicles
State of Alaska
907-269-5574

S2S services, as part of the State Pointer Exchange Services (SPEXS) systems, are hosted by Rackspace in their Northern Virginia ('IAD') and Dallas / Fort Worth ('DFW') datacenters. Rackspace is a leading service provider in managed-hosting / cloud solutions with specialists in all aspects of Information Technology including server support, networking, and information security. Rackspace provides services to over half of the Fortune 100 companies and is based in San Antonio, Texas. Rackspace is primarily responsible for three core security areas: physical security, network infrastructure, and corporate security operations. Physical security includes locking down and logging all physical access to the datacenters. Operational security involves creating business processes and policies that follow security best practices to limit access to confidential information and maintain tight security over time.

Below is a synopsis of the security protective measures that are in place, both from a physical and logical perspective, at the Rackspace datacenters hosting SPEXS. This includes the security protective measures instituted by Rackspace and also those that are incorporated in conjunction with the Information Security support team from AAMVA to protect information assets.

Policies, Standards, and Certifications

- Rackspace is ISO27001 certified which includes the standards utilized for keeping information assets secure and the foundation for an information security management system (ISMS). As part of the ISO 27001 framework, risk assessments are conducted at each data center annually.
- Rackspace conducts annual SSAE16 / ISAE3402 reporting to cover security processes and internal infrastructure including the SOC2 and SOC3 reports that are audited against the AICPA standard with a focus on the Security and Availability trust principles.
- Rackspace maintains formal information security policies and procedures and has a dedicated Chief Security Officer responsible for information security and oversight of the ISMS.
- Rackspace conducts asset management in accordance with ISO27001 standards, including assets used for SPEXS system processing.
- Rackspace has a defined Information Classification Policy that identifies all customer data as CONFIDENTIAL. It also addresses the marking and handling requirements of documentation related to the ISO27001 program and policies at Rackspace. All new Rackspace staff are required to sign confidentiality and non-disclosure agreements.

Personnel Security

- Background checks are conducted for all new hire Rackspace staff and information security awareness is incorporated into new hire orientation.
- Personnel procedures are in place to ensure that any Rackspace support staff access (physical and logical) to managed services supporting SPEXS are immediately removed in the event of termination or transfer.

Physical Datacenter Security

- Physical controls to the IAD and DFW Rackspace datacenters include:
 - Two-factor authentication is required to access all data center facilities
 - Electromechanical locks are controlled by biometric authentication (hand geometry or fingerprint scanner) and key-card/badge
 - Sensitive equipment, including customer servers, is housed in secure sub-areas within each data center's secure perimeter and is subject to additional controls
 - Rackspace data centers are operational 24x7x365 and are manned around the clock by a security team and engineering/operations personnel. Appropriate additional perimeter defensive measures, such as walls, fencing, gates and anti-vehicle controls are in place at Rackspace data centers. The delivery and loading bays at all Rackspace data centers are separate areas secured by defined procedures and security controls
 - Authorized approvers must specifically grant visitor access to the data centers at least 24 hours before the scheduled visit. All visitor access is logged and retained.
 - Centralized Security Management Systems are deployed at all data centers to control the Electronic Access Control Systems and CCTV networks. Alarms are directly connected to the local Fire and Police Departments
- Environmental controls to the IAD and DFW Rackspace datacenters include:
 - Redundant HVAC (Heating Ventilation Air Conditioning) units to provide consistent temperature and humidity - HVAC systems inspected regularly (at least quarterly).
 - Redundant lines of communication to telecommunication providers provide Rackspace customers with failover communication paths in the event of data communications interruption
 - Rackspace data centers are equipped with uninterruptible power supplies (UPS) to mitigate the risk of short-term utility power failures and fluctuations
 - Datacenter roofs and exterior walls of are heavy duty rated and are designed to withstand extreme weather
 - Datacenters are equipped smoke detectors and floor water detectors, to detect environmental hazards. The data centers are also equipped with raised flooring to protect hardware and communications equipment from water damage. Data centers are equipped with fire detection and suppression systems, fire extinguishers. Fire detection systems, suppression systems and chemical fire extinguishers are inspected at least annually

Operational and Technical Security Controls

- Change Management for the SPEXS environment is coordinated through a formal ticketing system and is a structured process between Rackspace and AAMVA support personnel
- Rackspace conducts asset management in accordance with ISO27001 standards, including assets used for SPEXS system processing

- Vulnerability Management processes are in place and coordinated between Rackspace and AAMVA to conduct:
 - Monthly patching and vulnerability scans for all SPEXS servers. AAMVA conducts independent vulnerability scans after each patching cycle.
 - AAMVA utilizes 3rd party Intrusion Detection Systems ('IDS') through Alert Logic via a managed services offering from Rackspace for all datacenters. Alerts are provided to the AAMVA Information Security team for response and resolution and is coordinated with Rackspace support as needed.
 - Standard malware protection / anti-virus software is installed for all SPEXS servers and centrally managed and monitored by Rackspace. AAMVA does monitor for the presence of the malware protection software (including versioning levels and up-to-date virus signature files) via the vulnerability scans.
- Firewalls are deployed for each of the datacenters. The firewalls are managed by Rackspace which are deployed in a maximum secure state, with ports/services closed/off from untrusted to trusted networks. AAMVA conducts annual third party testing (independent of Rackspace) for the firewalls.
- Strong access controls are in place including the use of bastion servers (as an additional level of protection) to authenticate and authorize Rackspace logical access to managed customer areas, such as SPEXS enabling a high level of accountability
- AAMVA IT support directly controls the logical access to the managed servers hosted at the datacenters and conducts periodic access reviews for both AAMVA and Rackspace support personnel.
- Sensitive information (e.g., Drivers Number) is encrypted on the SPEXS databases. Access to the database information is directly controlled by AAMVA IT support – Rackspace support does not manage or have access the database information (or any customer information).
- Auditing / logging is conducted at the operating system level (for servers) and at the database level. Audit information is centrally collected and fully managed by AAMVA
- Incident handling, including security events (e.g., IDS alerts) are handled through a formal ticketing system.
- Rackspace has a defined Hard Drive Wiping and Destruction Media process in the event of hard-drive / media re-use. AAMVA frontends the process by conducting a full erasure of all data prior to server decommissioning.

Disaster Recovery (DR)

- Under the direction and requirements set forth by AAMVA, Rackspace institutes backup processes for servers. Sensitive information stored on the database remains encrypted during backup processes.
- AAMVA is primarily responsible for developing the disaster recovery plans and procedures. Rackspace provides support for the setup of the infrastructure e.g., the setup for the mirrored DR site in DFW, and participation in DR testing / drills under the direction and oversight of AAMVA support.

Subject: AK - Proposed modifications to the Suspense Report to support State Web Services
Attachments: Consumer Access Response-Sample.xml

For states whose mode of participation in NMVTIS is online the Suspense Report is being enhanced to support states that have implemented the web service solution. The basic layout of the report is not changing. We are just going to change a few data labels so the report will be readable regardless of the technical approach the state has chosen: AMIE or Web Services. Attached is a report mockup.

What AAMVA would like to know is if any online states have automated the process of consuming the Suspense Report?

If yes, please briefly discuss your automated process in an email to npitt@aamva.org. If no, just respond by stating you will not be impacted.

Subject: AK - Proposed modifications to the Suspense Report to support State Web Services

For states whose mode of participation in NMVTIS is online the Suspense Report is being enhanced to support states that have implemented the web service solution. The basic layout of the report is not changing. We are just going to change a few data labels so the report will be readable regardless of the technical approach the state has chosen: AMIE or Web Services. Attached is a report mockup.

What AAMVA would like to know is if any online states have automated the process of consuming the Suspense Report?

If yes, please briefly discuss your automated process in an email to npitt@aamva.org. If no, just respond by stating you will not be impacted.

Subject: Reminder to CDLIS Participants

Reminder to CDLIS Participants:

AAMVA has created a page for the Medical Examiner's Certification Integration final rule (i.e., National Registry II) on the AAMVA website: <http://www.aamva.org/National-Registry-II/>

Listed below are steps on how to navigate to this page from AAMVA's home page:

- Select the 'Driver Licensing and Identification' photo at the top of the screen
- To the right of the screen, under 'Driver Licensing Systems', select 'CDLIS'
- To the right of the screen, under 'Related Content', select 'National Registry II'

The National Registry II page has three tabs which provide the following information:

- Overview – Overview of the National Registry II requirements and solution
- Documentation – Documentation available for National Registry II
- Participation – National Registry II State implementation status

FMCSA has approved the Mini Specification for the first National Registry II transaction 'NR01 MEC Verification Inquiry'. This Mini Specification and notes regarding the usage of this document is now available under the 'Documentation' tab.

AAMVA hosted webinars that provided a high level overview of the National Registry II solution, and a walk through of the NR01 Mini Spec in February 2017. The recording for these webinars and associated slides can be found in the AAMVA Webinar Archives: <http://www.aamva.org/Webinar-Archives/>

AAMVA will continue to release Mini Specifications for National Registry II and will inform you once they are available. The complete Master Specification will be published by February 2018. If you have any questions regarding the specification, please contact Helpdesk@aamva.org.

Subject: Region IV Registration

Hi Marla,

I note that you have not yet registered for the upcoming Region IV conference and urge you to do so at your earliest convenience. You can do so on the R-IV webpage at <http://www.aamva.org/2017-Region-IV-Conference-Home-/>.

Thanks much! See you in Seattle.

Sheila
